2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

Laporan keuangan konsolidasian, kecuali laporan arus kas konsolidasian, telah disusun secara akrual dengan menggunakan konsep biaya perolehan (historical cost), kecuali untuk akun-akun tertentu yang dicatat berdasarkan basis lain seperti yang diungkapkan pada kebijakan akuntansi di masingmasing akun terkait.

Laporan arus kas konsolidasian disusun dengan menggunakan metode langsung (*direct method*), dan dikelompokkan ke dalam aktivitas operasi, investasi dan pendanaan.

Mata uang penyajian yang digunakan dalam penyusunan laporan keuangan konsolidasian adalah mata uang Rupiah ("Rp"), yang juga merupakan mata uang fungsional Kelompok Usaha.

b. Prinsip-Prinsip Konsolidasian

Pengendalian dianggap ada ketika Perusahaan memiliki, secara langsung atau tidak langsung, lebih dari setengah kekuasaan suara suatu entitas, kecuali dalam keadaan yang jarang dapat ditunjukkan secara jelas bahwa kepemilikan tersebut tidak diikuti dengan pengendalian. Pengendalian juga ada ketika Perusahaan memiliki setengah atau kurang kekuasaan suara suatu entitas jika terdapat:

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Consolidated financial statements, except for the consolidated statements of cash flows, have been prepared on an accrual basis of accounting using the historical cost concept, except for certain accounts that are measured on the basis described in the related accounting policies.

The consolidated statements of cash flows are prepared using the direct method, and classified into operating, investing and financing activities.

The presentation currency used in the preparation of the consolidated financial statements is the Indonesian Rupiah ("Rp"), which is also the functional currency of the Group.

b. Principles of Consolidation

The consolidated financial statements include all Subsidiaries that are controlled by the Company. Control is presumed to exist when the Company, directly or indirectly, owns more than half of the voting power of an entity unless, in exceptional circumstances, it can be clearly demonstrated that such ownership does not constitute control. Control also exists when the Company owns half or less of the voting power of an entity but there is:

- (a) power over more than half of the voting rights by virtue of an agreement with other investors;
- (b) power to govern the financial and operating policies of the entity under a statute or an agreement;
- (c) power to appoint or remove the majority of the members of the board of directors and board of commissioners or equivalent governing body and control of the entity is by that board or body; or
- (d) power to cast the majority of votes at meetings of the board of directors and board of commissioners or equivalent governing body and control of the entity is by that board or body.

Subsidiaries are consolidated from the date of their acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

Kepentingan nonpengendali mencerminkan bagian atas laba atau rugi dan aset neto yang tidak diatribusikan kepada entitas induk dan disajikan secara terpisah dalam laporan laba rugi komprehensif konsolidasian dan ekuitas pada laporan posisi keuangan konsolidasian, dipisahkan dari ekuitas yang dapat diatribusikan kepada entitas induk.

Seluruh laba rugi komprehensif diatribusikan pada pemilik entitas induk dan pada kepentingan nonpengendali bahkan jika hal ini mengakibatkan kepentingan nonpengendali mempunyai saldo defisit.

Seluruh saldo akun dan transaksi yang material antar entitas yang dikonsolidasi telah dieliminasi.

Perubahan dalam bagian kepemilikan entitas induk pada entitas anak yang tidak mengakibatkan hilangnya pengendalian dicatat sebagai transaksi ekuitas, dimana nilai tercatat kepentingan pengendali dan nonpengendali disesuaikan untuk mencerminkan perubahan bagian relatifnya atas entitas anak. Perbedaan antara jumlah kepentingan nonpengendali disesuaikan dan nilai wajar imbalan yang diberikan atau diterima diakui secara langsung dalam ekuitas dan diatribusikan pada pemilik entitas induk.

Jika entitas induk kehilangan pengendalian atas entitas anak, maka entitas induk menghentikan pengakuan aset (termasuk goodwill), liabilitas dan komponen entitas terkait dengan entitas anak tersebut, dan mengukur setiap sisa investasi pada entitas anak terdahulu pada nilai wajarnya pada tanggal hilangnya pengendalian. Keuntungan atau kerugian yang terjadi diakui sebagai laba rugi yang dapat diatribusikan pada entitas induk.

c. Kombinasi Bisnis

Kombinasi bisnis dicatat dengan metode akuisisi. Selisih lebih nilai agregat dari nilai wajar imbalan dialihkan, jumlah proporsi kepemilikan kepentingan nonpengendali atas aset teridentifikasi dari pihak yang diakuisisi, dan nilai wajar kepentingan ekuitas yang sebelumnya dimiliki pihak pengakuisisi, atas nilai wajar aset neto teridentifikasi yang diperoleh diakui sebagai goodwill. Jika terdapat goodwill negatif, maka jumlah tersebut diakui dalam laba rugi. Goodwill tidak diamortisasi dan dilakukan uji penurunan nilai setiap tahun.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Non-controlling interest represents a portion of the profit or loss and net assets not attributable to the parent and is presented separately in the consolidated statement of comprehensive income, and within equity in the consolidated statement of financial position, separate from equity attributable to the parent.

Total comprehensive income is attributed to the owners of the parent company and the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

All significant intercompany transactions and balances have been eliminated.

Changes in a parent's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions, in which the carrying amounts of the controlling and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. The difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received shall be recognized directly in equity and attributed to the owners of the parent.

When a parent losses control of a subsidiary it derecognises the assets (including goodwill), liabilities and related equity components of the former subsidiary, and measures any investment retained in the former subsidiary at its fair value at the date when control is lost. The resulting gain or loss is recognized to profit or loss and attributed to the owners of the parent.

c. Business Combination

Business combinations are accounted for using the acquisition method. Any excess of the aggregate of the fair value of the consideration transferred, the non-controlling interest's proportionate share of the acquiree's net identifiable assets, and the fair value of the acquirer's previously held equity interest in the acquiree, over the fair values of the identifiable net assets acquired is recognized as goodwill. In case of negative goodwill, such amount is recognized to profit or loss. Goodwill is not amortized but annually assessed for impairment.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

Kombinasi bisnis entitas sepengendali dicatat berdasarkan PSAK No. 38 (2012), "Kombinasi Bisnis Entitas Sepengendali," dengan menggunakan metode penyatuan kepemilikan. Selisih antara harga pengalihan dengan nilai buku dicatat dalam akun "Selisih Nilai Transaksi dengan Entitas Sepengendali" dan disajikan sebagai bagian dari "Tambahan Modal Disetor" dalam laporan posisi keuangan dan selanjutnya tidak dapat diakui sebagai laba rugi direalisasi maupun direklasifikasi ke saldo laba.

Penerapan secara prospektif PSAK No. 38 (2012), "Kombinasi Bisnis Entitas Sepengendali", yang menggantikan PSAK No. 38 (2004), "Akuntansi Restrukturisasi Entitas Sepengendali" efektif tanggal 1 Januari 2013, tidak berdampak material terhadap laporan keuangan Kelompok Usaha.

d. Transaksi Pihak-pihak Berelasi

Kelompok Usaha mengungkapkan transaksi dengan pihak-pihak berelasi sebagaimana didefinisikan dalam PSAK No. 7 (Revisi 2010), "Pengungkapan Pihak-pihak Berelasi".

Transaksi ini dilakukan berdasarkan persyaratan yang disetujui oleh kedua belah pihak, dimana persyaratan tersebut mungkin tidak sama dengan transaksi lain yang dilakukan dengan pihak-pihak yang tidak berelasi.

Semua transaksi yang signifikan dengan pihak-pihak berelasi, baik yang dilakukan dengan syarat dan kondisi yang sama dengan pihak ketiga ataupun tidak diungkapkan dalam catatan atas laporan keuangan konsolidasian.

e. Transaksi dan Saldo dalam Mata Uang Asing

Transaksi dalam mata uang asing dijabarkan ke dalam mata uang fungsional dengan kurs yang berlaku pada saat transaksi dilakukan. Pada akhir periode pelaporan, aset dan liabilitas moneter dalam mata uang asing disesuaikan ke dalam mata uang fungsional menggunakan kurs tengah yang ditetapkan oleh Bank Indonesia pada tanggal terakhir transaksi perbankan pada periode tersebut. Laba dan rugi yang timbul dari penyesuaian kurs maupun penyelesaian aset dan liabilitas moneter dalam mata uang asing tersebut dikreditkan atau dibebankan sebagai laba rugi tahun/ periode berjalan.

The difference between the transfer price and the book value is recorded under the account "Difference in Value from Transaction with Entities under Common Control" and presented as part of "Additional Paid-in Capital" in the statement of financial position and subsequently should not be recognized as a realized gain or loss or reclassified to retained earnings.

The prospective application of PSAK No. 38 (2012), "Business Combinations of Entities under Common Control," which superseded PSAK No. 38 (2004), "Accounting for Restructuring of Entities under Common Control" effective January 1, 2013, did not have material impact on the Group's financial statements.

d. Transactions with Related Parties

The Group discloses transactions with related parties as defined in PSAK No. 7 (Revised 2010), "Related Party Disclosure".

The transactions are made based on terms agreed by the parties, whereas such terms may not be the same as those for transactions with unrelated parties.

At the end of the reporting period, monetary assets and liabilities denominated in foreign currencies are adjusted to the functional currency to reflect the middle exchange rate published by Bank Indonesia at the last banking transaction date of the period. The gains or losses resulting from such adjustment or settlement of each monetary asset and liability denominated in foreign currencies are credited or charged to the current period/ year profit or loss.

f. Instrumen Keuangan

(1) Aset keuangan

Pengakuan awal

Kelompok Usaha mengklasifikasikan semua aset keuangannya ke dalam kategori pinjaman yang diberikan dan piutang, yang pada awalnya diakui sebesar nilai wajarnya ditambah biaya transaksi.

Pengukuran selanjutnya

Pinjaman yang diberikan dan piutang diukur sebesar biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif, dikurangi dengan penurunan nilai. Keuntungan dan kerugian diakui dalam laporan laba rugi komprehensif konsolidasian pada saat pinjaman yang diberikan dan piutang dihentikan pengakuannya atau mengalami penurunan nilai, serta melalui proses amortisasi.

Penurunan nilai aset keuangan

Pada setiap tanggal pelaporan, Kelompok Usaha mengevaluasi apakah aset keuangannya mengalami penurunan nilai. Jika terdapat bukti obyektif penurunan nilai, maka jumlah kerugian tersebut, yang diukur sebagai selisih antara nilai tercatat aset dengan nilai kini estimasi arus kas masa datang (tidak termasuk kerugian kredit di masa datang yang belum terjadi) yang didiskonto menggunakan suku bunga efektif yang dihitung saat pengakuan awal aset tersebut, diakui dalam laba atau rugi.

f. Financial Instruments

(1) Financial assets

If there is objective evidence of impairment, the amount of loss, which is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not been incurred) discounted at the effective interest rate computed at initial recognition of the asset, shall be recognized to profit or loss.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

Penghentian pengakuan aset keuangan

(2) Liabilitas keuangan

Pengakuan awal

(4) Instrumen keuangan yang diukur pada biaya perolehan diamortisasi

Biaya perolehan diamortisasi dihitung menggunakan metode suku bunga efektif dikurangi dengan penyisihan atas penurunan nilai. Perhitungan tersebut mempertimbangkan premium atau diskonto pada saat perolehan dan termasuk biaya transaksi dan biaya yang merupakan bagian yang tidak terpisahkan dari suku bunga efektif.

Besarnya penyisihan merupakan selisih antara nilai aset tercatat dan nilai sekarang dari estimasi arus kas masa depan, didiskontokan dengan tingkat suku bunga efektif. Penurunan nilai aset tercatat dicatat di dalam akun penyisihan dan nilai kerugian diakui di dalam laba atau rugi. Ketika tidak dapat ditagih, piutang dihapuskan bersama dengan penyisihan piutang. (3) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

(4) Financial instruments measured at amortized cost

Amortized cost is computed using the effective interest method less any allowance for impairment. The calculation takes into account any premium or discount on acquisition and includes transaction costs and fees that are integral part of the effective interest rate.

g. Cash

Cash consists of cash on hand and in banks, and time deposits with original maturities within three (3) months or less.

h. Trade and Other Receivables

Receivables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method, less any allowance for impairment. An allowance for impairment of receivables is established when there is objective evidence that the outstanding amount of the Group's receivables will not be collected.

The amount of the allowance is the difference between the assets carrying amount and the present value of estimated future cash flows, discounted at the effective interest rate. The carrying amount of the receivables is reduced through the use of an allowance account, and the amount of the loss is recognized in profit or loss. When a receivable is uncollectible, it is written off against the allowance for impairment of receivables. Subsequent recoveries of amounts previously written off are credited against profit or loss.

i. Persediaan Materi Program

Persediaan materi program diukur berdasarkan nilai terendah antara nilai perolehan yang belum diamortisasi dengan nilai realisasi neto. Persediaan materi program dengan pembelian secara putus untuk program film, sinetron dan program serial, diamortisasi berdasarkan basis akselerasi selama jumlah penayangan yang diharapkan, sedangkan program dibawah perjanjian lisensi diamortisasi berdasarkan metode garis lurus selama periode lisensi atau berdasarkan jumlah penayangan, mana yang lebih dahulu. Program produksi sendiri, infotainment, berita, olahraga dan program talk show, diamortisasi sepenuhnya pada saat ditayangkan. Biaya perolehan dari persediaan materi program yang dijual ditentukan dengan menggunakan metode identifikasi khusus.

Persediaan materi program yang telah habis masa berlakunya tetapi belum ditayangkan serta persediaan materi program yang tidak layak tayang dihapuskan dan dibebankan dalam laba atau rugi periode/tahun berjalan.

j. Biaya Dibayar Dimuka

Biaya dibayar dimuka diamortisasi sesuai masa manfaat masing-masing biaya dengan menggunakan metode garis lurus.

k. Investasi pada Entitas Asosiasi

Entitas asosiasi adalah suatu entitas, dimana Kelompok Usaha mempunyai pengaruh signifikan dan bukan merupakan entitas anak (Catatan 2b) maupun bagian partisipasi dalam ventura bersama. Pemilikan, secara langsung maupun tidak langsung, 20% atau lebih hak suara *investee* dianggap pemilikan pengaruh signifikan, kecuali dapat dibuktikan dengan jelas hal yang sebaliknya.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i. Program Material Inventories

Program material inventories are stated at the lower of unamortized cost or net realizable value. Program material inventories for outright purchased programs such as film programs, sinetron and series programs are amortized based on an accelerated basis over the number of expected telecasts, while programs under license arrangements are amortized based on the straight line method over the years of the related license or number of telecasts, whichever is earlier. In-house production, infotainment, news, sports and talk show programs are amortized in full when aired. Cost of program material inventories sold is determined using the specific identification method.

Expired program inventories that have not been aired and unsuitable program inventories are written off and charged to the current period/year profit or loss.

j. Prepaid Expenses

Prepaid expenses are amortized over the periods benefited using the straight-line method.

k. Investments in Associate

An associate is an entity over which the Group has significant influence and that is neither a subsidiary (Note 2b) nor an interest in a joint venture. Direct or indirect ownership of 20 percent or more of the voting power of an investee is presumed to be an ownership of singnificant influence, unless it can be clearly demonstrated that this is not the case.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

Investasi pada entitas asosiasi dicatat dengan menggunakan metode ekuitas, dimana pada awalnya diakui sebesar biaya perolehan. Selanjutnya bagian Kelompok Usaha atas laba rugi entitas asosiasi, setelah penyesuaian yang diperlukan terhadap dampak penyeragaman kebijakan akuntansi dan eliminasi laba atau rugi yang dihasilkan dari transaksi antara Kelompok Usaha dan entitas asosiasi, akan menambah atau mengurangi jumlah tercatat investasi tersebut dan diakui sebagai laba rugi Kelompok Usaha. Penerimaan distribusi dari entitas asosiasi mengurangi nilai tercatat investasi. Penyesuaian terhadap jumlah tercatat tersebut juga diperlukan jika terdapat perubahan dalam proporsi bagian Kelompok Usaha atas entitas asosiasi yang timbul dari pendapatan komprehensif lain dari entitas asosiasi. Bagian Kelompok Usaha atas perubahan tersebut diakui dalam pendapatan komprehensif lain dari Kelompok Usaha.

Goodwill yang terkait dengan akuisisi entitas asosiasi termasuk dalam jumlah tercatat investasi. Jika terdapat goodwill negatif, maka jumlah tersebut diakui di dalam laba rugi. Goodwill tidak diamortisasi dan dilakukan uji penurunan nilai setiap tahun.

Apabila nilai tercatat investasi telah mencapai nilai nol, kerugian selanjutnya akan diakui bila Kelompok Usaha mempunyai komitmen untuk menyediakan bantuan pendanaan atau menjamin kewajiban entitas asosiasi yang bersangkutan.

I. Aset Tetap

Kelompok Usaha telah memilih untuk menggunakan model biaya sebagai kebijakan akuntansi pengukuran aset tetapnya.

Penyusutan dihitung dengan metode garis lurus selama umur manfaat aset. Taksiran masa manfaat ekonomis aset sebagai berikut:

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment in an associate is accounted for using the equity method, under which it is initially recognized at cost. Subsequently the Group's share of the profit or loss of the associate, after any adjustments necessary to give effect to uniform accounting policies and elimination of profits and losses resulting from transactions between the Group and the associate, increases or decreases its carrying amount and is recognized to the Group's profit or loss. Distributions received from the associate reduce the carrying amount of the investment. Adjustments to the carrying amount may also be necessary for changes in the Group's proportionate interest in the associate arising from changes in the associate's other comprehensive income. The Group's share of those changes is recognized in other comprehensive income of the Group.

Goodwill on acquisition of an associate is included in the carrying amount of the investment. In the case of negative goodwill, such amount is recognized to profit or loss. Goodwill is no longer amortized but annually assessed for impairment.

Once an investment's carrying value has been reduced to zero, further losses are taken up if the Group has committed to provide financial support to, or has guaranteed the obligations of the associate.

I. Fixed Assets

The Group has chosen the cost model as the accounting policy for its fixed assets measurement.

Depreciation is calculated on a straight-line basis over the useful lives of the assets. The estimated useful lives of the assets are as follows:

<u> </u>
Buildings and leasehold improvements
Studio equipment and relay station
equipment
Furniture and fixtures, office equipment
and vehicles

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

Masa manfaat ekonomis aset tetap dan metode depresiasi ditelaah dan disesuaikan, jika sesuai keadaan, pada setiap tanggal pelaporan.

Hak atas tanah dinyatakan sebesar nilai perolehan dan tidak disusutkan.

Aset dalam penyelesaian dinyatakan sebesar biaya perolehan dan disajikan sebagai bagian dari "Aset Tetap" dalam laporan posisi keuangan konsolidasian. Akumulasi biaya perolehan akan dipindahkan ke masing-masing akun aset tetap yang bersangkutan pada saat aset tersebut selesai dikerjakan dan siap digunakan.

Beban perbaikan dan pemeliharaan dibebankan pada rugi pada saat laba atau terjadinya; biaya signifikan penggantian atau inspeksi yang dikapitalisasi pada saat terjadinya dan jika besar kemungkinan manfaat ekonomis di masa depan berkenaan dengan aset tersebut akan mengalir ke Kelompok Usaha, dan biaya perolehan aset dapat diukur secara andal. Aset tetap dihentikan pengakuannya pada saat dilepaskan atau ketika tidak ada manfaat ekonomis masa depan yang diharapkan dari penggunaan atau pelepasannya. Laba atau rugi yang timbul dari penghentian pengakuan aset dimasukkan dalam laporan laba rugi komprehensif konsolidasian pada tahun aset tersebut dihentikan pengakuannya.

m. Penurunan Nilai Aset Non-Keuangan

Pada setiap tanggal pelaporan Kelompok Usaha menilai apakah terdapat indikasi aset mengalami penurunan nilai. Jika terdapat indikasi tersebut, maka Kelompok Usaha mengestimasi jumlah terpulihkan aset tersebut. Jumlah terpulihkan suatu aset atau unit penghasil kas adalah jumlah yang lebih tinggi antara nilai wajar dikurangi biaya untuk menjual dan nilai pakainya. Jika jumlah terpulihkan suatu aset lebih kecil dari nilai tercatatnya, nilai tercatat aset harus diturunkan menjadi sebesar jumlah terpulihkan. Kerugian penurunan nilai diakui segera dalam laba rugi.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The assets useful lives and methods of depreciation are reviewed, and adjusted if appropriate, at each reporting date.

Land rights are stated at cost and are not depreciated.

Construction-in-progress is stated at cost and presented as part of "Fixed Assets" in the consolidated statement of financial position. The accumulated costs will be reclassified to the appropriate fixed assets account when construction is completed and the assets are ready for their intended use.

The cost of repairs and maintenance is charged to profit or loss as incurred; replacement or major inspection costs are capitalized when incurred if it is probable that future economic benefits associated with the costs will flow to the Group and the cost of the item can be reliably measured. An item of fixed assets is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of fixed assets is included in the consolidated statement of comprehensive income in the year the asset are derecognized.

m. Impairment of Non-Financial Assets

The Group evaluates at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the Group estimates the recoverable amount of the asset. The recoverable amount of an asset or a cash-generating unit is the higher of its fair value less costs to sell and its value in use. Whenever the carrying amount of an asset exceeds its recoverable amount, the asset is considered to be impaired and is written down to its recoverable amount. The impairment loss is recognized immediately to profit or loss.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

n. Sewa

Sewa yang mengalihkan secara substansial semua risiko dan manfaat yang terkait dengan kepemilikan aset kepada lessee diklasifikasikan sebagai sewa pembiayaan. Pada awal masa sewa, sewa pembiayaan dikapitalisasi sebesar nilai wajar aset sewaan atau sebesar nilai kini dari pembayaran sewa minimum, jika nilai kini lebih rendah dari nilai wajar. Pembayaran sewa minimum dipisahkan antara bagian yang merupakan beban keuangan dan bagian yang merupakan pelunasan liabilitas sehingga menghasilkan suatu tingkat bunga periodik yang konstan atas saldo liabilitas. Beban keuangan dibebankan pada laporan laba rugi komprehensif konsolidasian. Aset sewaan yang dimiliki oleh lessee dengan dasar sewa pembiayaan dicatat pada akun aset tetap dan disusutkan sepanjang masa manfaat dari aset sewaan tersebut atau periode masa sewa, mana yang lebih pendek, jika tidak ada kepastian yang memadai bahwa lessee akan mendapatkan hak kepemilikan pada akhir masa sewa.

Dalam hal transaksi jual dan sewa-balik merupakan sewa pembiayaan maka transaksi tersebut harus diperlakukan sebagai dua transaksi yang terpisah yaitu transaksi penjualan dan transaksi sewa. Selisih lebih hasil penjualan dari nilai tercatat ditangguhkan dan diamortisasi selama masa sewa.

Sewa yang tidak mengalihkan secara substansial seluruh risiko dan manfaat yang terkait dengan kepemilikan aset diklasifikasikan sebagai sewa operasi.

o. Pengakuan Pendapatan dan Beban

Pendapatan diakui bila besar kemungkinan manfaat ekonomi akan diperoleh Kelompok Usaha dan jumlahnya dapat diukur secara handal. Pendapatan diukur pada nilai wajar imbalan yang diterima, tidak termasuk diskon, rabat dan pajak penjualan (PPN).

Pendapatan iklan diakui pada saat iklan yang bersangkutan ditayangkan.

Penjualan materi program diakui pada saat penyerahan materi kepada pelanggan atau pada saat produksi selesai, sesuai dengan keadaannya, berdasarkan syarat dalam perjanjian tersebut. PT INTERMEDIA CAPITAL Tbk AND SUBSIDIARIES

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

n. Leases

Leases that transfer substantially all the risks and benefits incidental to ownership of the leased item to the lessee are classified as finance leases. Finance leases are capitalized at the inception of the lease at the fair value of the leased assets or at the present value of the minimum lease payments if the present value is lower than the fair value. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recorded in the consolidated statement of comprehensive income. Leased assets held by the lessee under finance leases are included in fixed assets and depreciated over the estimated useful life of the assets or the lease term, whichever is shorter, if there is no reasonable certainty that lessee will obtain ownership by the end of the lease term.

In the case of sale and leaseback resulting in a finance lease, this is to be treated as two separate transactions, i.e. sale and lease. The excess of sales proceeds over the carrying amount is deferred and amortized over the lease term.

Leases that do not transfer substantially all the risks and benefits incidental to ownership of the leased item are classified as operating leases.

o. Revenue and Expense Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received, excluding discounts, rebates and value-added taxes (VAT).

Advertisement revenue is recognized when the advertisement is aired.

Sale of program materials is recognized upon delivery of materials to customers or upon completion of production, as the case may be, in accordance with the term of the related agreements.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

Uang muka yang diterima dari pelanggan dicatat sebagai "Uang Muka Pelanggan" pada laporan posisi keuangan konsolidasian.

Beban diakui pada saat terjadinya (metode akrual).

p. Imbalan Kerja

Kelompok Usaha menentukan liabilitas imbalan kerja sesuai dengan Undang-undang Ketenagakerjaan No.13/2003 ("Undang-undang") tanggal 25 Maret 2003. PSAK No. 24 (Revisi 2010), "Imbalan Kerja" mensyaratkan beban imbalan pascakerja berdasarkan Undang-undang ditentukan dengan menggunakan metode aktuarial "*Projected Unit Credit*".

Keuntungan atau kerugian aktuarial diakui sebagai atau beban apabila pendapatan akumulasi keuntungan atau kerugian aktuarial neto yang belum diakui pada akhir tahun pelaporan sebelumnya melebihi jumlah yang lebih besar diantara 10% dari nilai kini imbalan pasti dan 10% dari nilai wajar aset program pada akhir periode pelaporan. Porsi keuntungan atau kerugian aktuarial yang diakui adalah kelebihan tersebut dibagi dengan rata-rata sisa masa kerja ekspektasian dari para pekerja terkait. Beban jasa lalu yang terjadi ketika memperkenalkan program imbalan pasti atau mengubah imbalan terutang pada program imbalan pasti yang ada, diamortisasi selama periode sampai imbalan tersebut menjadi hak.

Kelompok Usaha mengakui keuntungan atau kerugian atas kurtailmen atau penyelesaian pada saat terjadinya. Kurtailmen terjadi jika entitas menunjukkan komitmennya untuk mengurangi secara signifikan jumlah pekerja yang ditanggung oleh program, atau mengubah ketentuan dalam program yang menyebabkan bagian yang material dari jasa masa depan pekerja tidak lagi memberikan imbalan atau memberikan imbalan yang lebih rendah. Sebelum menentukan dampak kurtailmen atau penyelesaian, Kelompok Usaha mengukur kembali kewajiban dengan menggunakan asumsi aktuarial yang berlaku.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Advances received from customers are recorded as "Advance Receipts from Customers" in the consolidated statement of financial position.

Expenses are recognized when incurred (accrual basis).

p. Employee Benefits

The Group determines its employee benefits liabilities under Labor Law No. 13/2003 dated March 25, 2003 ("the Law"). PSAK No. 24 (Revised 2010), "Employee Benefits" requires cost of post employment benefits based on the Law is determined using the "Projected Unit Credit" actuarial valuation method.

Actuarial gains or losses are recognized as income or expense when the net cumulative unrecognized actuarial gains and losses at the end of the previous reporting year exceeded the greater of 10% of the present value of defined benefit obligation and 10% of the fair value of plan assets at that date. The recognized portion of actuarial gains or losses is the excess divided by the expected average remaining working lives of the related employees. Past-service cost arising from the introduction of a defined benefit plan or changes in the benefits obligation of an existing plan are required to be amortized over the period until the benefits concerned become vested.

The Group recognizes gains or losses on curtailment or settlement when such occurs. A curtailment occurs when an entity is demonstrably committed to making a significant reduction in the number of employees covered by a plan, or amending the terms of a defined benefit plan so that a significant element of future service by current employees will no longer qualify for benefits, or will qualify only for reduced benefits. Before determining the effect of a curtailment or settlement, the Group remeasures the obligation using current actuarial assumptions.

q. Pajak Penghasilan

Beban pajak kini ditetapkan berdasarkan taksiran laba kena pajak periode berjalan.

Aset pajak kini dan liabilitas pajak kini dilakukan saling hapus jika dan hanya jika entitas memiliki hak yang dapat dipaksakan secara hukum untuk melakukan saling hapus jumlah yang diakui, dan bermaksud untuk menyelesaikan dengan dasar neto, atau merealisasikan aset dan menyelesaikan liabilitas secara bersamaan.

Aset dan liabilitas pajak tangguhan diakui atas perbedaan temporer antara aset dan liabilitas untuk tujuan komersial dan untuk tujuan perpajakan setiap tanggal pelaporan. Manfaat pajak di masa mendatang, seperti saldo rugi fiskal yang belum digunakan, diakui sejauh besar kemungkinan realisasi atas manfaat pajak tersebut.

Aset dan liabilitas pajak tangguhan diukur pada tarif pajak yang diharapkan akan digunakan pada periode ketika aset direalisasi atau ketika liabilitas dilunasi berdasarkan tarif pajak (dan peraturan perpajakan) yang berlaku atau secara substansial telah diberlakukan pada akhir periode pelaporan.

Aset pajak tangguhan dan liabilitas pajak tangguhan dilakukan saling hapus jika dan hanya jika entitas memiliki hak secara hukum untuk saling hapus aset pajak kini terhadap liabilitas pajak kini, dan aset pajak tangguhan dan liabilitas pajak tangguhan terkait dengan pajak penghasilan yang dikenakan oleh otoritas perpajakan atas entitas kena pajak, yang sama atau entitas kena pajak berbeda yang bermaksud untuk memulihkan aset dan liabilitas pajak kini dengan dasar neto, atau merealisasikan aset dan menyelesaikan liabilitas secara bersamaan, pada setiap periode masa depan yang mana jumlah signifikan atas aset atau liabilitas pajak tangguhan diharapkan diselesaikan atau dipulihkan.

Jumlah tambahan pokok dan denda pajak berdasarkan Surat Ketetapan Pajak ("SKP") diakui sebagai pendapatan atau beban dalam laba rugi periode/tahun berjalan. Namun jika diajukan upaya penyelesaian selanjutnya, jumlah tersebut ditangguhkan pembebanannya sepanjang memenuhi kriteria pengakuan aset.

g. Income Taxes

Current tax expense is provided based on the estimated taxable income for the period.

Current tax assets and current tax liabilities are offset if, and only if, the entity has a legally enforceable right to set off the recognized amounts, and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred tax assets and liabilities are recognized for temporary differences between the financial and the tax bases of assets and liabilities at each reporting date. Future tax benefits, such as the carry-forward of unused tax losses, are also recognized to the extent that realization of such benefits is probable.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the end of reporting period.

Deferred tax assets and deferred tax liabilities are offset if, and only if, the entity has a legally enforceable right to set off current tax assets against current tax liabilities, and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity, or different taxable entities that intend either to settle current tax liabilities and assets on a net basis, or to realize the assets and settle the liabilities simultaneously in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Additional tax principal and penalty amounts based on Tax Assessment Letters ("SKP") are recognized as income or expense in the current period/year profit or loss. However when further avenue is sought, such amounts are deferred if they meet the asset recognition criteria.

r. Laba per Saham

Laba per saham dasar dihitung dengan membagi laba atau rugi yang dapat diatribusikan kepada pemegang saham biasa entitas induk, dengan jumlah rata-rata tertimbang saham biasa yang beredar, dalam suatu periode.

s. Informasi Segmen

Entitas mengungkapkan informasi yang memungkinkan pengguna laporan keuangan untuk mengevaluasi sifat dan dampak keuangan dari aktivitas bisnis dan menggunakan "pendekatan manajemen" dalam menyajikan informasi segmen menggunakan dasar yang sama seperti halnya pelaporan internal. Segmen operasi dilaporkan dengan cara yang konsisten dengan pelaporan internal yang disampaikan kepada pengambil keputusan operasional. Dalam hal ini pengambil keputusan operasional yang mengambil keputusan strategis adalah Direksi.

t. Provisi dan Kontinjensi

Provisi diakui jika Kelompok Usaha memiliki kewajiban kini (baik bersifat hukum maupun bersifat konstruktif) yang akibat peristiwa masa lalu besar kemungkinannya penyelesaian kewajiban tersebut mengakibatkan arus keluar sumber daya yang mengandung manfaat ekonomi dan estimasi yang andal mengenai jumlah kewajiban tersebut dapat dibuat.

Provisi ditelaah pada setiap akhir periode pelaporan dan disesuaikan untuk mencerminkan estimasi terbaik yang paling kini. Jika arus keluar sumber daya untuk menyelesaikan kewajiban kemungkinan besar tidak terjadi, maka provisi dibatalkan.

Aset dan liabilitas kontinjensi tidak diakui dalam laporan keuangan konsolidasian. Liabilitas kontinjensi diungkapkan dalam laporan keuangan konsolidasian, kecuali arus keluar sumber daya yang mengandung manfaat ekonomi kemungkinannya kecil. Aset kontinjensi diungkapkan dalam laporan keuangan konsolidasian, jika terdapat kemungkinan besar arus masuk manfaat ekonomis akan diperoleh.

r. Earnings per Share

Basic earnings per share are computed by dividing net income attributable to ordinary equity holders of the parent entity, by the weighted average number of ordinary shares outstanding during the period.

s. Segment Information

Entities disclose information that enable users of the financial statements to evaluate the nature and financial effects of the business activities and use a "management approach" under which segment information is presented on the same basis as that used for internal reporting purposes. Operating segment is reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker has been identified as the board of directors, which makes strategic decisions.

t. Provisions and Contingencies

Provisions are recognized when the Group has a present obligation (legal or constructive) where, as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision is reversed.

Contingent assets and liabilities are not recognized in the consolidated financial statements. Contingent liabilities are disclosed in the consolidated financial statements, unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are disclosed in the consolidated financial statements where an inflow of economic benefits is probable.

3. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING

Penyusunan laporan keuangan sesuai dengan Standar Akuntansi Keuangan di Indonesia mewajibkan manajemen untuk membuat pertimbangan, estimasi dan asumsi yang mempengaruhi jumlah-jumlah yang dilaporkan dalam laporan keuangan. Sehubungan dengan adanya ketidakpastian yang melekat dalam membuat estimasi, hasil sebenarnya yang dilaporkan di masa mendatang dapat berbeda dengan jumlah estimasi yang dibuat.

Kelompok Usaha mendasarkan asumsi dan estimasi pada parameter yang tersedia pada saat laporan keuangan konsolidasian disusun. Asumsi dan situasi mengenai perkembangan masa depan mungkin berubah akibat perubahan pasar atau situasi diluar kendali Kelompok Usaha. Perubahan tersebut dicerminkan dalam asumsi terkait pada saat terjadinya.

Pertimbangan, estimasi dan asumsi berikut ini dibuat oleh manajemen dalam rangka penerapan kebijakan akuntansi Kelompok Usaha yang memiliki pengaruh paling signifikan atas jumlah yang diakui dalam laporan keuangan konsolidasian:

Menentukan klasifikasi aset dan liabilitas keuangan

Kelompok Usaha menetapkan klasifikasi atas aset dan liabilitas tertentu sebagai aset keuangan dan liabilitas keuangan dengan mempertimbangkan apakah definisi yang ditetapkan PSAK No. 55 dipenuhi. Dengan demikian, aset keuangan dan liabilitas keuangan diakui sesuai dengan kebijakan akuntansi Kelompok Usaha. seperti diungkapkan pada Catatan 2f.

Menentukan nilai wajar dan perhitungan amortisasi biaya perolehan dari instrumen keuangan

Kelompok Usaha mencatat aset dan liabilitas keuangan tertentu pada nilai wajar dan pada biaya perolehan yang diamortisasi, yang mengharuskan penggunaan estimasi akuntansi. Sementara komponen signifikan atas pengukuran nilai wajar dan asumsi yang digunakan dalam perhitungan amortisasi biaya perolehan ditentukan menggunakan bukti obyektif yang dapat diverifikasi, jumlah nilai wajar atau amortisasi dapat berbeda bila Kelompok Usaha menggunakan metodologi penilaian atau asumsi yang berbeda. Perubahan tersebut dapat mempengaruhi secara langsung laba rugi Kelompok Usaha (Catatan 27).

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of financial statements, in conformity with Indonesian Financial Accounting Standards, requires management to make judgments, estimations and assumptions that affect amounts reported therein. Due to the inherent uncertainty in making estimates, actual results reported in future periods may differ from those estimates.

The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions as they occur.

The following judgments, estimates and assumptions made by management in the process of applying the Group's accounting policies have the most significant effects on the amounts recognized in the consolidated financial statements:

<u>Determining classification of financial assets and financial liabilities</u>

The Group determines the classifications of certain assets and liabilities as financial assets and financial liabilities by judging if they meet the definition set forth in PSAK No. 55. Accordingly, the financial assets and financial liabilities are accounted for in accordance with the Group's accounting policies disclosed in Note 2f.

<u>Determining fair value and calculation of cost</u> amortization of financial instruments

The Group records certain financial assets and liabilities at fair values and at amortized costs, which requires the use of accounting estimates. While significant components of fair value measurement and assumptions used in the calculation of cost amortization were determined using verifiable objective evidence, the fair value or amortization amount would differ if the Group utilized different valuation methodology or assumptions. Such changes would directly affect the Group's profit or loss (Note 27).

3. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING (Lanjutan)

Menilai jumlah terpulihkan dari aset keuangan

Kelompok Usaha mengevaluasi akun piutang tertentu yang diketahui bahwa pelanggan tertentu tidak dapat memenuhi kewaiiban keuangannya. Dalam hal tersebut. Kelompok Usaha menggunakan pertimbangan, berdasarkan fakta dan situasi yang tersedia, termasuk namun tidak terbatas pada, jangka waktu hubungan dengan pelanggan dan status kredit dari pelanggan berdasarkan catatan kredit dari pihak ketiga yang tersedia dan faktor pasar yang telah diketahui, untuk mencatat penyisihan spesifik atas pelanggan terhadap jumlah terutang guna mengurangi jumlah piutang yang diharapkan dapat diterima oleh Kelompok Usaha. Penyisihan spesifik ini dievaluasi kembali jika tambahan informasi yang diterima disesuaikan mempengaruhi jumlah penyisihan atas penurunan nilai piutang (Catatan 6 dan 7).

Menentukan amortisasi persediaan materi program

Persediaan materi program dengan pembelian secara putus untuk program film, sinetron dan program serial, diamortisasi berdasarkan basis akselerasi selama jumlah penayangan yang diharapkan, sedangkan program dibawah perjanjian lisensi diamortisasi berdasarkan garis lurus selama periode lisensi atau berdasarkan jumlah penayangan, mana yang lebih dahulu. Amortisasi tersebut adalah secara umum diharapkan dalam industri dimana Kelompok Usaha menjalankan bisnisnya. Perubahan dalam belanja iklan, penjualan waktu tayang, peringkat, pangsa pemirsa dan perkembangan teknologi dapat mempengaruhi amortisasi persediaan materi program dan karenanya metode amortisasi tersebut di masa depan mungkin direvisi (Catatan 8).

Menentukan metode penyusutan dan estimasi umur manfaat aset tetap

Biaya perolehan aset tetap disusutkan dengan menggunakan metode garis lurus berdasarkan taksiran masa manfaat ekonomisnya. Manajemen mengestimasi masa manfaat ekonomis aset tetap antara tiga (3) sampai dengan dua puluh (20) tahun. Ini adalah umur yang secara umum diharapkan dalam industri dimana Kelompok Usaha menjalankan bisnisnya. Perubahan tingkat pemakaian dan perkembangan teknologi dapat mempengaruhi masa manfaat ekonomis dan nilai sisa aset, dan karenanya biaya penyusutan masa depan mungkin direvisi (Catatan 2l dan 10).

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)

Assessing recoverable amount of financial assets

The Group evaluates specific accounts receivable where it has information that certain customers are unable to meet their financial obligations. In these cases, the Group uses judgment, based on available facts and circumstances, including but not limited to, the length of its relationship with the customer and the customer's current credit status based on any available third party credit reports and known market factors, to record specific provisions for customers against amounts due to reduce its receivable amounts that the Group expects to collect. These specific provisions are re-evaluated and adjusted as additional information received affects the provision for impairment (Notes 6 and 7).

<u>Determining amortization method of program material inventories</u>

Program material inventories for outright purchased programs such as film programs, sinetrons and series programs are amortized based on an accelerated basis over the number of expected telecasts, while programs under license arrangements are amortized based on the straight-line method over the periods of the related license or number of telecasts, whichever is earlier. The amortization practices are commonly applied in the industry in which the Group conducts its business. Changes in advertising expenditure, sale of airtime, rating, audience share and technological development could impact on the amortization method of program material inventories and therefore, the amortization method could be revised in the future (Note 8).

<u>Determining depreciation method and estimated useful</u> lives of fixed assets

The costs of fixed assets are depreciated on a straightline basis over their estimated useful lives. Management properly estimates the useful lives of these fixed assets to be within three (3) to twenty (20) years. These are common life expectancies applied in the industry in which the Group conducts its business. Changes in the expected level of usage and technological development could impact on the useful economic lives and residual values of these assets, and therefore future depreciation charges could be revised (Notes 2I and 10).

3. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING (Lanjutan)

Alokasi harga beli dalam suatu kombinasi bisnis

Akuntansi akuisisi mensyaratkan penggunaan estimasi dan pertimbangan akuntansi untuk mengalokasikan harga perolehan terhadap nilai pasar wajar dari aset dan liabilitas yang teridentifikasi dari entitas yang diakuisisi. Setiap kelebihan dari harga perolehan atas nilai pasar wajar yang diestimasikan dari aset neto yang diakuisisi diakui sebagai *goodwill* dalam laporan posisi keuangan konsolidasian. Dengan demikian, pertimbangan yang dibuat dalam mengestimasi nilai pasar wajar yang diatribusikan ke aset dan liabilitas entitas yang diakuisisi dapat mempengaruhi kinerja keuangan Kelompok Usaha secara material.

Menilai penurunan nilai aset non-keuangan tertentu

Penyisihan keusangan materi program persediaan diestimasi berdasarkan fakta dan situasi yang tersedia, termasuk namun tidak terbatas kepada, kondisi fisik persediaan yang dimiliki, harga jual pasar, dan estimasi biaya penyelesaian. Provisi dievaluasi kembali dan disesuaikan jika terdapat tambahan informasi yang mempengaruhi jumlah yang diestimasi (Catatan 8).

Jumlah terpulihkan aset tetap dan goodwill didasarkan pada estimasi dan asumsi khususnya mengenai prospek pasar dan arus kas terkait dengan aset. Estimasi arus kas masa depan mencakup perkiraan mengenai pendapatan masa depan. Setiap perubahan dalam asumsi-asumsi ini mungkin memiliki dampak material terhadap pengukuran jumlah terpulihkan dan bisa mengakibatkan penyesuaian penyisihan penurunan nilai yang sudah dibukukan.

Pada tanggal 30 September 2013 dan 31 Desember 2012, 2011 dan 2010, Kelompok Usaha menilai bahwa tidak ada indikasi penurunan nilai persediaan materi program, uang muka pembelian peralatan, aset tetap, *goodwill* dan aset tidak lancar lainnya.

Estimasi beban pensiun dan imbalan kerja

Penentuan liabilitas dan biaya pensiun dan liabilitas imbalan kerja Kelompok Usaha bergantung pada pemilihan asumsi yang digunakan dalam menghitung jumlah-jumlah tersebut. Asumsi tersebut termasuk antara lain, tingkat diskonto, tingkat kenaikan gaji tahunan, tingkat pengunduran diri karyawan tahunan, tingkat kecacatan, umur pensiun dan tingkat kematian. Sementara Kelompok Usaha berkeyakinan bahwa asumsi tersebut adalah wajar dan sesuai, perbedaan signifikan pada hasil aktual atau perubahan signifikan dalam asumsi yang ditetapkan Kelompok Usaha dapat mempengaruhi secara material liabilitas dan beban imbalan kerja (Catatan 19).

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)

Purchase price allocation in a business combination

Accounting for acquisitions requires extensive use of accounting estimates and judgments to allocate the purchase price to the fair market values of the acquiree's identifiable assets and liabilities at the acquisition date. Any excess in the purchase price over the estimated fair market values of the net assets acquired is recorded as goodwill in the consolidated financial statements. Thus, the numerous judgments made in estimating the fair market value to be assigned to the acquiree's assets and liabilities can materially affect the Group's financial performance.

Assessing impairment of certain non-financial assets

Allowance for obsolescence of program material inventories is estimated based on available facts and circumstances, including but not limited to, the inventories own physical condition, their market selling prices, and estimated costs of completion. The provisions are re-evaluated and adjusted as additional information received affects the amount estimated (Note 8).

The recoverable amounts of fixed assets and goodwill are based on estimates and assumptions regarding in particular the expected market outlook and future cash flows associated with the assets. Estimated future cash flows include estimates of future revenues. Any changes in these assumptions may have a material impact on the measurement of the recoverable amount and could result in adjustments to the provision of impairment already booked.

As of September 30, 2013 and December 31, 2012, 2011 and 2010, the Group assessed that there was no indication of impairment of its program material inventories, advances for purchase of equipment, fixed assets, goodwill or other non-current assets.

Estimation of pension cost and employee benefits

The determination of the Group's liabilities and cost for pension and employee benefits is dependent on its selection of certain assumptions used in calculating such amounts. These assumptions include among others, discount rates, annual salary increase rate, annual employee turn-over rate, disability rate, retirement age and mortality rate. While the Group believes that its assumptions are reasonable and appropriate, significant differences in the Group's actual results or significant changes in the Group's assumptions may materially affect its employee benefits liabilities and expenses (Note 19).

3. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING (Lanjutan)

Menentukan pajak penghasilan

Pertimbangan signifikan dilakukan dalam menentukan provisi atas pajak penghasilan badan. Terdapat transaksi dan perhitungan tertentu yang penentuan pajak akhirnya adalah tidak pasti sepanjang kegiatan usaha normal. Kelompok Usaha mengakui liabilitas atas pajak penghasilan badan berdasarkan estimasi apakah akan terdapat tambahan pajak penghasilan badan (Catatan 18).

Kelompok Usaha menelaah aset pajak tangguhan pada setiap tanggal pelaporan dan mengurangi nilai tercatat sepanjang tidak ada kemungkinan bahwa laba kena pajak memadai untuk mengkompensasi sebagian atau seluruh aset pajak tangguhan. Kelompok Usaha juga menelaah waktu yang diharapkan dan tarif pajak atas pemulihan perbedaan temporer dan menyesuaikan pengaruh atas pajak tangguhan yang sesuai (Catatan 18).

Mengevaluasi provisi dan kontinjensi

Kelompok Usaha melakukan pertimbangan untuk membedakan antara provisi dan kontinjensi serta mempersiapkan provisi yang sesuai untuk proses hukum atau kewajiban konstruktif, jika ada, sesuai dengan kebijakan provisinya dan mempertimbangkan risiko dan ketidakpastian yang relevan.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)

Determining income taxes

Significant judgment is involved in determining provision for corporate income tax. There are certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognizes liabilities for expected corporate income tax issues based on estimates of whether additional corporate income tax will be due (Note 18).

The Group reviews its deferred tax assets at each reporting date and reduces the carrying amount to the extent it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilized. The Group also reviews the expected timing and tax rates upon reversal of temporary differences and adjusts the impact of deferred tax accordingly (Note 18).

Evaluating provisions and contingencies

The Group exercises its judgment to distinguish between provisions and contingencies and sets up appropriate provisions for its legal and constructive obligations, if any, in accordance with its policies on provisions and takes relevant risks and uncertainty into account.

4. ACQUISITION OF SUBSIDIARIES

On June 23, 2009, as further amended on August 18, 2009 and September 28, 2009, PT Cakrawala Andalas Televisi ("CAT") and PT Asia Global Media ("AGM") entered into a Restructuring Agreement with PT Bakrie Global Ventura (formerly PT CMA Indonesia) ("BGV") and PT Bakrie Capital Indonesia ("BCI"), together referred to as "BGV Parties"; Promised Result Limited ("PR"), Good Respond Limited ("GR"), and Fast Plus Limited ("FP"), together referred to as "Star TV Parties"; Asian Broadcasting FZ LLC ("Star HK"); and the Company to restructure, among others, the business interests of BGV Parties and Star Parties in CAT and AGM. Seluruh piutang lain-lain menggunakan mata uang Rupiah.

All other receivables are denominated in Rupiah currency.

Manajemen berkeyakinan bahwa cadangan kerugian penurunan nilai piutang adalah cukup untuk menutupi kerugian penurunan nilai atas tidak tertagihnya piutang lain-lain.

The management believes that allowance for impairment of other receivables is adequate to cover possible losses on uncollectible other receivables.

Manajemen berpendapat bahwa persediaan materi program tidak perlu diasuransikan terhadap risiko kerugian atas kebakaran atau pencurian karena nilai wajar persediaan materi program tidak dapat diterapkan sebagai dasar untuk menentukan nilai pertanggungan asuransi dan bila terjadi kebakaran atau pencurian atas persediaan materi program yang dibeli, CAT dapat meminta penggantian dari distributor bersangkutan selama persediaan materi program tersebut belum ditayangkan dan belum habis masa berlakunya.

Management believes that the program material inventories do not need to be insured against risk of loss from fire or theft because the fair value of the program material inventories could not be established for the purpose of insurance. If such loss should occur, CAT can request a replacement from the relevant distributor for as long as the program material inventories have not yet been aired or expired.

Berdasarkan PSAK 60, "Instrumen Keuangan: Pengungkapan", terdapat tingkatan hirarki nilai wajar sebagai berikut:

- harga kuotasian (tidak disesuaikan) dalam pasar aktif untuk aset atau liabilitas yang identik (tingkat 1),
- input selain harga kuotasian yang termasuk dalam tingkat 1 yang dapat diobservasi untuk aset atau liabilitas, baik secara langsung (misalnya harga) atau secara tidak langsung (misalnya derivasi dari harga pasar) (tingkat 2), dan
- c) input untuk aset atau liabilitas yang bukan berdasarkan data pasar yang dapat diobservasi (input yang tidak dapat diobservasi) (tingkat 3).

Metode dan asumsi berikut ini digunakan untuk mengestimasi nilai wajar untuk setiap kelompok instrumen keuangan sepanjang nilai tersebut dapat diestimasi:

Aset dan liabilitas keuangan jangka pendek:

 Instrumen keuangan jangka pendek dengan jatuh tempo satu tahun atau kurang (kas, piutang usaha dan piutang lain-lain). Based on PSAK 60, "Financial Instruments: Disclosures", there are levels of fair value hierarchy as follows:

- a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1),
- b) inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from market prices) (level 2), and
- c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

The following methods and assumptions were used to estimate the fair value of each class of financial instrument for which it is practicable to do so:

Short-term financial assets and liabilities:

 Short-term financial instruments with remaining maturities of one year or less (cash, trade receivables and other receivables).

27. INSTRUMEN KEUANGAN (Lanjutan)

Instrumen keuangan ini diperkirakan sebesar nilai tercatat mereka karena sebagian besar merupakan jangka pendek.

Aset dan liabilitas keuangan jangka panjang:

 Liabilitas keuangan jangka panjang dengan suku bunga tetap.

Nilai wajar dari liabilitas keuangan ini ditentukan dengan mendiskontokan arus kas masa datang menggunakan suku bunga yang berlaku dari transaksi pasar yang dapat diamati untuk instrumen dengan persyaratan, risiko kredit dan jatuh tempo yang sama.

Aset dan liabilitas keuangan jangka panjang lainnya

Estimasi nilai wajar didasarkan pada nilai diskonto dari arus kas masa datang yang disesuaikan untuk mencerminkan risiko pihak lawan (untuk aset keuangan) dan risiko kredit Kelompok Usaha (untuk liabilitas keuangan) dan menggunakan suku bunga bebas risiko (*risk-free rates*) dari instrumen yang serupa.

Untuk aset keuangan tidak lancar lainnya yang tidak dikuotasi di harga pasar dan nilai wajarnya tidak dapat diukur secara handal tanpa menimbulkan biaya yang berlebihan, dicatat berdasarkan nilai nominal dikurangi penurunan nilai.

Pada tanggal 30 September 2013, 31 Desember 2012, 2011 dan 2010, Kelompok Usaha tidak memiliki instrumen keuangan yang diukur pada nilai wajar.

28. INFORMASI SEGMEN

Kelompok Usaha hanya mempunyai segmen usaha yaitu jasa periklanan dan jasa non iklan yang berlokasi di Jakarta yang dipertimbangkan sebagai segmen primer. Seluruh pendapatan atas jasa tersebut berasal dari wilayah Indonesia sehingga segmen geografis tidak disajikan.

27. FINANCIAL INSTRUMENTS (Continued)

These financial instruments approximate to their carrying amounts largely due to their short-term maturities.

Long-term financial assets and liabilities:

Long-term fixed-rate financial liabilities.

The fair value of these financial liabilities is determined by discounting future cash flows using applicable rates from observable current market transactions for instruments with similar terms, credit risk and remaining maturities.

· Other long-term financial assets and liabilities

Estimated fair value is based on the discounted value of future cash flows adjusted to reflect counterparty risk (for financial assets) and the Group's own credit risk (for financial liabilities) and using risk-free rates for similar instruments.

Other non-current assets that are not stated at quoted market price and whose fair value cannot be reliably measured without incurring excessive costs, are carried at their nominal amounts less any impairment losses.

As of September 30, 2013, December 31, 2012, 2011 and 2010, the Group had no financial instruments measured at fair value.

28. SEGMENT INFORMATION

The Group has only business segments, i.e., advertisement and non-advertisement services located in Jakarta, which are considered as a primary segment. All revenues from these services are from Indonesia. Therefore, no geographical segments are presented.

Berdasarkan estimasi manajemen sampai dengan tanggal pelaporan berikutnya, kurs Rupiah terhadap mata uang lainnya dapat melemah/menguat 3% dibandingkan kurs pada tanggal 30 September 2013 dan 2012 dan 31 Desember 2012.

Jika pada tanggal 30 September 2013 and 2012 dan December 31, 2012, Rupiah melemah/menguat 3% terhadap mata uang lainnya dengan seluruh variabel lain tetap, maka dampak sebelum pajak terhadap laba neto pada tanggal-tanggal 30 September 2013 dan 31 Desember 2012 akan berupa penurunan/peningkatan masing-masing sekitar Rp167,03 juta dan Rp5,32 miliar.

c. Risiko likuiditas

Manajemen risiko likuiditas yang hati-hati termasuk mengatur kas yang cukup untuk menunjang aktivitas usaha secara tepat waktu. Kelompok Usaha mengatur keseimbangan antara kesinambungan kolektibilitas piutang dan fleksibilitas melalui penggunaan pinjaman.

Based on management's estimate, until the next reporting date, the exchange rate of Rupiah against other currencies may weaken/strengthen by 3%, compared to the exchange rate as of September 30, 2013 and 2012, and December 31, 2012.

If at September 30, 2013 and 2012 and December 31, 2012, Rupiah had weakened/strengthened by 3% against other currencies with all other variables held constant, the effect before tax on September 30, 2013 and December 31, 2012 net income would have been a decrease/ increase of approximately Rp167.03 million and Rp5.32 billion, respectively.

c. Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash to support business activities on a timely basis. The Group maintains a balance between continuity of accounts receivable collectibility and flexibility through the use of borrowings.
