2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

Kebijakan akutansi yang digunakan dalam penyusunan laporan keuangan konsolidasian interim konsisten dengan diikuti dalam penyusunan laporan keuangan konsolidasian interim tahunan Kelompok Usaha pada tanggal dan untuk tahun yang berakhir 31 Desember 2014, kecuali untuk penerapan standar akutansi amandemen yang relevan efektif 1 Januari 2015 yang memiliki dampak signifikan terhadap laporan keuangan konsolidasian interim Kelompok Usaha sebagai berikut:

• PSAK No. 1 (penyesuaian 2013), Penyajian Laporan Keuangan.

PSAK No. 1 (Revisi 2013) memperkenalkan terminologi baru untuk laporan laba rugi komprehensif menjadi laporan laba rugi dan penghasilan komprehensif lain. PSAK No. 1 mengharuskan tambahan pengungkapan dimana pos-pos dari penghasilan komprehensif lain dikelompokkan menjadi dua kategori: (1) Tidak akan direklasifikasi lebih lanjut ke laba rugi ketika kondisi tertentu terpenuhi.

Penerapan atau PSAK No. 1 (Revisi 2013) memiliki dampak yang signifikan terhadap penyajian laporan keuangan konsolidasian interim Kelompok Usaha.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The accounting policies used in the preparation of the interim consolidated financial statements are consistent with those followed in the preparation of the Group's annual interim consolidated financial statements as of and for the year ended December 31, 2014, except for the adoption of relevant accounting standards amendments effective January 1, 2015 which had significant impact on the Group's interim consolidated financial statements as follows:

• PSAK No. 1 (revised 2013), Presentation of Financial Statements.

PSAK No. 1 (Revised 2013) introduced new terminology for the statement of comprehensive income which was renamed as a "statement of profit or loss and other comprehensive income". PSAK No. 1 requires additional disclosures of other comprehensive income which is grouped into two categories: (1) items that will not be reclassified subsequently to profit or loss; and (2) items that may be reclassified subsequently to profit or loss when specific conditions are met.

The adoption or PSAK No. 1 (Revised 2013) had significant impact on the presentation of the Group's interim consolidated financial statement.

• PSAK No. 24 (Revised 2013), Employee Benefits.

The significant revision in PSAK No. 24 relating to benefit obligation and plan assets. The amendments required the recognition of changes in defined benefit obligations and in fair value of plan assets when they occur, and hence eliminated the use of 'corridor approach' and accelerated the recognition of past service costs. The amendments require all actuarial gains and losses to be recognized immediately through other comprehensive income.

The adoption of PSAK No. 24 (Revised 2013), Employee Benefits had significant impact on the the Group's interim consolidated financial statement and had been restrospectively applied (Note 2c).

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

Ketika entitas menerapkan suatu kebijakan akuntansi secara retrospektif atau membuat penyajian kembali pos-pos laporan keuangan atau ketika entitas mereklasifikasi pos-pos dalam laporan keuangannya maka laporan posisi keuangan pada awal periode komparatif disajikan.

b. Prinsip-Prinsip Konsolidasian

Efektif tanggal 1 Januari 2015, Kelompok Usaha menerapkan PSAK No. 65 "Laporan Keuangan Konsolidasian". PSAK ini mengantikan porsi PSAK No. 4 (Revisi 2009) mengenai pengaturan akuntansi untuk laporan keuangan konsolidasian, menetapkan prinsip penyusunan dan penyajian laporan keuangan konsolidasian ketika entitas mengendalikan satu atau lebih entitas lain. PSAK tersebut tidak memberikan pengaruh yang berarti terhadap laporan keuangan konsolidasian interim.

Laporan keuangan konsolidasian interim menggabungkan seluruh Entitas Anak yang dikendalikan oleh Perusahaan. Pengendalian dianggap ada ketika Perusahaan memiliki, secara langsung atau tidak langsung melalui Entitas Anak, sebagai berikut:

- (a) Kekuasaan untuk mengarahkan aktivitas relevan;
- (b) Eksposur atau hak atas imbal hasil variable dari keterlibatannya dengan *investee*;
- (c) Kemampuan untuk menggunakan kekuasaannya atas *investee* untuk mempengaruhi jumlah imbal hasil *investor*.

Entitas Anak dikonsolidasi sejak tanggal akuisisi, yaitu tanggal Kelompok Usaha memperoleh pengendalian, sampai dengan tanggal Kelompok Usaha kehilangan pengendalian.

Kepentingan nonpengendali mencerminkan bagian atas laba atau rugi dan aset neto yang tidak diatribusikan kepada entitas induk dan disajikan secara terpisah dalam laporan laba rugi dan komprehensif lain konsolidasian interim dan ekuitas pada laporan posisi keuangan konsolidasian interim, dipisahkan dari ekuitas yang dapat diatribusikan kepada entitas induk.

Seluruh laba rugi komprehensif diatribusikan pada pemilik entitas induk dan pada kepentingan nonpengendali bahkan jika hal ini mengakibatkan kepentingan nonpengendali mempunyai saldo defisit.

Seluruh saldo akun dan transaksi yang material antar entitas yang dikonsolidasi telah dieliminasi.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

When the entity adopts accounting policy retrospectively or restates items in its financial statements or the entity reclassifies the items in its financial statements, the statements of financial position at the beginning of comparative period is presented.

b. Principles of Consolidation

stated)

Effective January 1, 2015, the Group adopted PSAK No. 65 "Consolidated Financial Statements". This PSAK replaces the portion of PSAK No. 4 (Revised 2009) that addresses the accounting for consolidated financial statements, established the principles for the presentation and preparation of consolidated financial statements when an entity controls one or more other entities. The adoption of this new PSAK has no significant impact on the interim consolidated financial statements.

The interim consolidated financial statements include all Subsidiaries that are controlled by the Company. Control is presumed to exist when the Company, directly or indirectly through Subsidiaries, has the following:

- (a) Power to direct over relevant activities;
- (b) Exposure, or rights, to variable returns from its involvement with the investee;
- (c) Ability to use its power over the investee to affect the amount of the investor's returns.

Subsidiaries are consolidated from the date of their acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Non-controlling interest represents a portion of the profit or loss and net assets not attributable to the parent and is presented separately in the interim consolidated statement of profit or loss and other comprehensive income, and within equity in the interim consolidated statement of financial position, separate from equity attributable to the parent.

Total comprehensive income is attributed to the owners of the parent and the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

All significant intercompany transactions and balances have been eliminated.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

Perubahan dalam bagian kepemilikan entitas induk pada entitas anak yang tidak mengakibatkan hilangnya pengendalian dicatat sebagai transaksi ekuitas, dimana nilai tercatat kepentingan pengendali dan nonpengendali disesuaikan untuk mencerminkan perubahan bagian relatifnya atas entitas anak. Perbedaan antara jumlah kepentingan nonpengendali disesuaikan dan nilai wajar imbalan yang diberikan atau diterima diakui secara langsung dalam ekuitas dan diatribusikan pada pemilik entitas induk.

Jika entitas induk kehilangan pengendalian atas entitas anak, maka entitas induk menghentikan pengakuan aset (termasuk *goodwill*), liabilitas dan komponen entitas terkait dengan entitas anak tersebut, dan mengukur setiap sisa investasi pada entitas anak terdahulu pada nilai wajarnya pada tanggal hilangnya pengendalian. Keuntungan atau kerugian yang terjadi diakui sebagai laba rugi yang dapat diatribusikan pada entitas induk.

c. Penyajian Kembali Laporan Keuangan Konsolidasian

Efektif mulai tanggal 1 Januari 2015, Kelompok Usaha telah menerapkan secara retrospektif "PSAK No. 24 (Revisi 2013): Imbalan kerja" ("Revisi PSAK No. 24").

Revisi PSAK No. 24 menyediakan, antara lain, sebagai berikut:

- 1. Laba dan rugi aktuaria harus diakui sekarang ini sebagai pendapatan komprehensif lainnya dan dikeluarkan secara permanen dari laba rugi;
- Biaya jasa lalu yang belum vested tidak lagi dapat ditangguhkan dan diakui selama periode vesting masa depan, sebaliknya, semua biaya jasa lalu akan diakui pada saat yang lebih dulu antara ketika amandemen/kurtailmen terjadi atau biaya terminasi diakui, yang mana terjadi sebelumnya; dan
- Pengembalian aset dana pensiun yang diharapkan tidak lagi diakui dalam laporan. Sebagai gantinya, penghasilan bunga atau beban diakui dari net aset imbalan pasti, yang dihitung dengan menggunakan tingkat diskonto untuk mengukur kewajiban pensiun.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Changes in a parent's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions, in which the carrying amounts of the controlling and noncontrolling interests are adjusted to reflect the changes in their relative interests in the subsidiary. The difference between the amount by which the noncontrolling interests are adjusted and the fair value of the consideration paid or received shall be recognized directly in equity and attributed to the owners of the parent.

When a parent loses control of a subsidiary, it derecognizes the assets (including goodwill), liabilities and related equity components of the former subsidiary, and measures any investment retained in the former subsidiary at its fair value at the date when control is lost. The resulting gain or loss is recognized to profit or loss and attributed to the owners of the parent.

c. Restatements of the Consolidated Financial statements

Effective January 1, 2015, the Group retrospectively applied "PSAK No. 24 (Revised 2013): Employee benefits" ("Revised PSAK No. 24").

The Revised PSAK No. 24 provides, among others, the following:

- 1. Actuarial gains and losses are now required to be recognized in full in other comprehensive income and are permanently excluded from profit or loss;
- 2. Unvested past service costs are no longer deferred and amortized over future vesting period, rather, all past service costs are recognized when the amendment or curtailment occurs or when the related restructuring or termination costs are recognized, whichever occurs earlier; and
- 3. Expected return on plan assets are no longer recognized in the profit or loss. Instead, an interest income or expense is recognized from the net defined benefit asset or liability, which is calculated using the discount rate used to measure the benefit liability.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

Dengan demikian, penerapan revisi PSAK No. 24 mengakibatkan penyajian kembali laporan keuangan konsolidasian interim Kelompok Usaha sebagai berikut:

PSAK No. 55 (Revisi 2014) memberikan ketentuan tambahan untuk kriteria pengakhiran atau penghentian instrumen lindung nilai, dan ketentuan untuk mencatat instrumen keuangan pada tanggal pengukuran dan setelah pengakuan awal. PSAK No. 60 (Revisi 2014) memberikan ketentuan tambahan mengenai pengungkapan saling hapus dengan informasi kuantitatif dan kualitatif dan pengungkapan mengenai transfer instrumen keuangan. Penerapan PSAK yang direvisi tersebut tidak memberikan pengaruh yang berarti terhadap laporan keuangan konsolidasian.

(1) Aset keuangan

Pengakuan awal

Aset keuangan pada awalnya diakui sebesar nilai wajarnya ditambah biaya transaksi, kecuali untuk aset keuangan yang diklasifikasikan pada nilai wajar melalui laporan laba rugi yang pada awalnya diukur dengan nilai wajar. Klasifikasi aset keuangan antara lain sebagai aset keuangan yang ditetapkan untuk diukur pada pinjaman yang diberikan dan piutang atau aset keuangan tersedia untuk dijual (AFS). Kelompok Usaha menetapkan klasifikasi aset keuangannya pada saat pengakuan awal dan, sepanjang diperbolehkan dan diperlukan, ditelaah kembali pengklasifikasian aset tersebut pada setiap akhir periode pelaporan.

g. Financial Instruments

Effective January 1, 2015, the Group applied PSAK No. 50 (Revised 2014) "Financial Instruments: Presentation", PSAK No. 55 (Revised 2014) "Financial Instruments: Recognition and Measurement", and PSAK No. 60 (Revised 2014) "Financial Instruments: Disclosures".

PSAK No. 50 (Revised 2014) provides guidance on applying the criteria on legally enforceable right to set-off recognized amounts and to settle on a net basis. PSAK No. 55 (Revised 2014) discusses the criteria of non-expiration or termination of hedging instrument and the accounting for financial instruments at the measurement date and after initial recognition. PSAK No. 60 (Revised 2014) discusses offsetting disclosures with quantitative and qualitative information and disclosures on transfers of financial instruments from one classification to another. The adoption of these revised PSAKs has no significant impact on the consolidated financial statements.

(1) Financial assets

Initial recognition

Financial assets are recognized initially at fair value plus transaction costs, except for those financial assets classified as at fair value through profit or loss which are initially measured at fair value. Financial assets are classified as loans and receivables or available-for-sale financial assets (AFS). The Group determines the classification of its financial assets at initial recognition and, where allowed and appropriate, re-evaluates the designation of such assets at each end of reporting period.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

Pengukuran selanjutnya

• Pinjaman yang diberikan dan piutang

Pinjaman yang diberikan dan piutang diukur sebesar biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif, dikurangi dengan penurunan nilai. Keuntungan dan kerugian diakui dalam laporan laba rugi dan penghasilan komprehensif lainnya konsolidasian interim pada saat pinjaman yang diberikan dan piutang dihentikan pengakuannya atau mengalami penurunan nilai, serta melalui proses amortisasi.

• Aset keuangan tersedia untuk dijual (AFS)

Aset keuangan AFS adalah aset keuangan non derivatif yang ditetapkan sebagai tersedia untuk dijual atau yang tidak diklasifikasikan sebagai pinjaman yang diberikan dan piutang, nilai wajar melalui laporan laba rugi atau rugi aset keuangan atau aset keuangan yang dimiliki hingga jatuh tempo. Setelah pengakuan awal, aset keuangan AFS diukur dengan nilai wajar dengan keuntungan atau kerugian yang belum terealisasi diakui dalam komponen ekuitas sampai aset keuangan tersebut dihentikan pengakuannya atau sampai diturunkan nilainya dan pada saat yang sama keuntungan atau kerugian kumulatif yang sebelumnya diakui dalam ekuitas harus diakui dalam laba rugi. Aset keuangan ini diklasifikasikan sebagai aset tidak lancar kecuali aset keuangan tersebut ditujukan untuk dilepaskan dalam waktu dua belas bulan dari tanggal laporan posisi keuangan.

Penurunan nilai aset keuangan

Pada setiap tanggal pelaporan, Kelompok Usaha mengevaluasi apakah aset keuangannya mengalami penurunan nilai.

Subsequent measurement

• Loan and receivables

Loans and receivables are carried at amortized cost using the effective interest method, less any impairment. Gains and losses are recognized in the interim consolidated statement of profit or loss and other comprehensive income when the loans and receivables are derecognized or impaired, as well as through the amortization process.

• Available-for-sale (AFS) financial assets

AFS financial assets are non-derivative financial assets that are designated as available-for-sale or are not classified as loans and receivables, fair value through profit or loss financial assets or held-to-maturity financial assets. After initial recognition, AFS financial assets are measured at fair value with unrealized gains and losses being recognized as a component of equity until the financial assets are derecognized or until the financial assets are determined to be impaired, at which time the cumulative gains or losses previously reported in equity are included in profit or loss. These financial assets are classified as non-current assets unless the intention is to dispose of them within twelve months from the statement of financial position date.

Impairment of financial assets

The Group evaluates at each reporting date whether any of its financial asset is impaired.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

• Aset keuangan yang diukur pada biaya perolehan diamortisasi

Jika terdapat bukti objektif penurunan nilai, maka jumlah kerugian tersebut, yang diukur sebagai selisih antara nilai tercatat aset dengan nilai kini estimasi arus kas masa datang (tidak termasuk kerugian kredit dimasa datang yang belum terjadi) yang didiskonto menggunakan suku bunga efektif yang dihitung saat pengakuan awal aset tersebut, diakui pada laba rugi.

• Aset keuangan tersedia untuk dijual (AFS)

Jika terdapat bukti obyektif bahwa aset AFS mengalami penurunan nilai, maka kerugian kumulatif yang sebelumnya diakui secara langsung dalam ekuitas harus dikeluarkan dari ekuitas dan diakui pada laba rugi.

Penghentian pengakuan aset keuangan

Kelompok Usaha menghentikan pengakuan aset keuangan, jika dan hanya jika: hak kontraktual atas arus kas yang berasal dari aset keuangan tersebut berakhir: atau Kelompok Usaha mentransfer hak kontraktual untuk menerima arus kas yang berasal dari aset keuangan; atau tetap memiliki hak kontraktual untuk menerima arus kas yang berasal dari aset keuangan namun juga menanggung kewajiban kontraktual untuk membayar arus kas yang diterima tersebut kepada satu atau lebih pihak penerima melalui suatu kesepakatan yang memenuhi persyaratan tertentu. Ketika Kelompok Usaha mentransfer aset keuangan, maka Kelompok Usaha mengevaluasi sejauh mana kelompok Usaha tetap memiliki risiko dan manfaat atas kepemilikan aset keuangan tersebut.

(2) Liabilitas keuangan

Pengakuan awal

Kelompok Usaha mengklasifikasikan semua liabilitas keuangannya ke dalam kategori liabilitas keuangan yang diukur pada biaya perolehan diamortisasi, yang pada awalnya sebesar nilai wajar dan termasuk biaya transaksi yang dapat diatribusikan secara langsung.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

• Financial assets measured at amortised cost

If there is objective evidence of impairment, the amount of loss, which is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not been incurred) discounted at the effective interest rate computed at initial recognition of the asset, shall be recognized in profit or loss.

• Available-for-sale (AFS) financial assets

If there is objective evidence that an AFS asset is impaired, the cumulative loss previously recognized directly in equity is transferred from equity to profit or loss.

Derecognition of financial assets

The Group derecognizes financial assets when, and only when: the contractual rights to the cash flows from the financial asset expire; the contractual rights to receive the cash flows of the financial asset are transferred to another entity; or the contractual rights to receive the cash flows of the financial asset are retained but a contractual obligation is assumed to pay the cash flows to one or more recipients in an arrangement that meets certain conditions. When the Group transfers a financial asset, it evaluates the extent to which it retains the risks and rewards of ownership of the financial asset.

(2) Financial liabilities

Initial recognition

The Group classifies all of its financial liabilities into financial liabilities measured at amortized cost, which are recognized initially at fair value and inclusive of directly attributable transaction costs.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

Pengukuran selanjutnya

Setelah pengakuan awal, liabilitas keuangan dalam kategori ini selanjutnya diukur pada biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif. Keuntungan dan kerugian diakui dalam laporan laba rugi dan penghasilan komprehensif lainnya konsolidasian interim pada saat liabilitas tersebut dihentikan pengakuannya serta melalui proses amortisasi.

Penghentian pengakuan liabilitas keuangan

Kelompok Usaha menghentikan pengakuan liabilitas keuangan jika, dan hanya jika, liabilitas Kelompok Usaha dihentikan, dibatalkan atau kadaluwarsa.

(3) Saling hapus instrumen keuangan

Aset keuangan dan liabilitas keuangan saling hapus dan nilai netonya dilaporkan dalam laporan posisi keuangan konsolidasian interim jika, dan hanya jika, saat ini memiliki hak yang berkekuatan hukum untuk melakukan saling hapus atas jumlah yang telah diakui dan terdapat niat untuk menyelesaikannya secara neto, atau untuk merealisasikan aset dan menyelesaikan liabilitasnya secara simultan.

(4) Nilai wajar dari instrument keuangan

wajar instrument keuangan diperdagangkan secara aktif di pasar keuangan yang terorganisasi, jika ada, ditentukan dengan mengacu pada kuotasi harga di pasar aktif pada penutupan bisnis pada akhir periode pelaporan. Untuk instrument keuangan yang tidak memiliki pasar aktif, nilai wajar ditentukan dengan menggunakan teknik penilaian. Teknik penilaian tersebut mencakup penggunaan transaksitransaksi pasar yang wajar antara pihak-pihak yang mengerti dan berkeinginan (arm's length market transactions); referensi atas nilai wajar terkini dari instrumen lain yang secara substansial sama; analisa arus kas yang didiskonto; atau model penilaian lain.

Subsequent measurement

After initial recognition, financial liabilities in this category are subsequently measured at amortized cost using the effective interest method. Gains and losses are recognized in the interim consolidated statement of profit or loss and other comprehensive income when the liabilities are derecognized, as well as through the amortization process.

<u>Derecognition of financial liabilities</u>

The Group derecognizes financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired.

(3) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the interim consolidated statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

(4) Fair value of financial instruments

The fair value of financial instruments that are actively traded in organized financial markets if any, is determined by reference to quoted market bid prices at the close of business at the end of the reporting year. For financial instruments where there is no active market, fair value is determined using valuation techniques. Such techniques may include using arm's length market transaction, reference to the current fair value of another instrument that is substantially the same, discounted cash flow analysis, or other valuation models.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

(5) Instrumen keuangan yang diukur pada biaya perolehan diamortisasi

Biaya perolehan diamortisasi dihitung menggunakan metode suku bunga efektif dikurangi dengan penyisihan atas penurunan nilai. Perhitungan tersebut mempertimbangkan premium atau diskonto pada saat perolehan dan termasuk biaya transaksi dan biaya yang merupakan bagian yang tidak terpisahkan dari suku bunga efektif.

h. Kas dan setara kas

Kas dan setara kas terdiri dari saldo kas, bank dan deposito berjangka dengan jangka waktu kurang dari tiga (3) bulan yang tidak digunakan sebagai jaminan atau dibatasi penggunaannya.

i. Piutang Usaha dan Piutang Lain-lain

Piutang pada awalnya diakui sebesar nilai wajar dan selanjutnya diukur pada biaya perolehan diamortisasi dengan menggunakan metode bunga efektif, dikurangi penyisihan atas penurunan nilai. Penyisihan atas penurunan nilai piutang dibentuk pada saat terdapat bukti obyektif bahwa saldo piutang Kelompok Usaha tidak dapat ditagih.

Besarnya penyisihan merupakan selisih antara nilai aset tercatat dan nilai sekarang dari estimasi arus kas masa depan, didiskontokan dengan tingkat suku bunga efektif. Penurunan nilai aset tercatat dicatat di dalam akun penyisihan dan nilai kerugian diakui di dalam laba atau rugi. Ketika tidak dapat ditagih, piutang dihapuskan bersama dengan penyisihan piutang. Pemulihan nilai setelah penghapusan piutang diakui sebagai penghasilan dalam laba rugi.

(5) Financial instruments measured at amortized cost

Amortized cost is computed using the effective interest method less any allowance for impairment. The calculation takes into account any premium or discount on acquisition and includes transaction costs and fees that are on integral part of the effective interest rate.

h. Cash and cash equivalent

Cash and cash equivalent consists of cash on hand, cash in banks and time deposit with original maturities within three (3) months or less that are not pledged as collateral or restricted in use.

i. Trade and Other Receivables

Receivables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method, less any allowance for impairment. An allowance for impairment of receivables is established when there is objective evidence that the outstanding amount of the Group's receivables will not be collected.

The amount of the allowance is the difference between the assets carrying amount and the present value of estimated future cash flows, discounted at the effective interest rate. The carrying amount of the receivables is reduced through the use of an allowance account, and the amount of the loss is recognized in profit or loss. When a receivable is uncollectible, it is written off against the allowance for impairment of receivables. Subsequent recoveries of amounts previously written off are credited against profit or loss.

j. Persediaan Materi Program

Persediaan materi program diukur berdasarkan nilai terendah antara nilai perolehan yang belum diamortisasi (nilai perolehan dikurangi amortisasi) dengan nilai realisasi neto. Persediaan materi program dengan pembelian secara putus untuk film, sinetron dan program program diamortisasi sepenuhnya pada saat ditayangkan, sedangkan program dibawah perjanjian lisensi diamortisasi berdasarkan metode garis lurus selama periode lisensi atau berdasarkan jumlah penayangan, mana yang lebih dahulu. Produksi program in-house, infotainment, berita, olahraga dan program talk show, diamortisasi sepenuhnya pada saat ditayangkan. Biaya perolehan persediaan materi program yang dijual ditentukan dengan menggunakan metode identifikasi khusus.

Persediaan materi program yang telah habis masa berlakunya tetapi belum ditayangkan serta persediaan materi program yang tidak layak tayang dihapuskan dan dibebankan dalam laba rugi periode berjalan.

k. Biaya Dibayar Dimuka

Biaya dibayar dimuka diamortisasi sesuai masa manfaat masing-masing biaya dengan menggunakan metode garis lurus.

l. Aset Tetap

Kelompok Usaha telah memilih untuk menggunakan model biaya sebagai kebijakan akuntansi pengukuran aset tetapnya.

Seluruh aset tetap awalnya diakui sebesar biaya perolehan, yang terdiri atas harga perolehan dan biaya-biaya tambahan yang dapat diatribusikan langsung untuk membawa aset ke lokasi dan kondisi yang diinginkan supaya aset tersebut siap digunakan sesuai dengan maksud manajemen.

Setelah pengakuan awal, aset tetap, kecuali tanah, dinyatakan pada biaya perolehan dikurangi akumulasi penyusutan dan akumulasi rugi penurunan nilai.

j. Program Material Inventories

stated)

Program material inventories are stated at the lower of unamortized cost (cost less amortized) or net realizable value. Program material inventories for outright purchased programs such as film programs, sinetron and series programs are amortized in full when aired, while programs under license arrangements are amortized based on the straight line method over the years of the related license or number of telecasts, whichever is earlier. In-house production, infotainment, news, sports and talk show programs are amortized in full when aired. Cost of program material inventories sold is determined using the specific identification method.

Expired program inventories that have not been aired and unsuitable program inventories are written off and charged to the current period profit or loss.

k. Prepaid Expenses

Prepaid expenses are amortized over the periods benefited using the straight-line method.

l. Fixed Assets

The Group has chosen the cost model as the accounting policy for its fixed assets measurement.

All fixed assets are initially recognized at cost, which comprises its purchase price and any costs directly attributable in bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Subsequent to initial recognition, fixed assets, except land, are carried at cost less any subsequent accumulated depreciation and impairment losses.

Pada setiap akhir periode pelaporan, nilai residu aset, umur manfaat dan metode penyusutan ditelaah, dan jika sesuai dengan keadaan, disesuaikan secara prospektif.

Aset dalam penyelesaian dinyatakan sebesar biaya perolehan dan disajikan sebagai bagian dari "Aset Tetap" dalam laporan posisi keuangan konsolidasian interim. Akumulasi biaya perolehan akan dipindahkan ke masing-masing akun aset tetap yang bersangkutan pada saat aset tersebut selesai dikerjakan dan siap digunakan.

Beban perbaikan dan pemeliharaan dibebankan pada laba rugi pada saat terjadinya; biaya penggantian atau inspeksi yang signifikan dikapitalisasi pada saat terjadinya dan jika besar kemungkinan manfaat ekonomis di masa depan berkenaan dengan aset tersebut akan mengalir ke Kelompok Usaha, dan biaya perolehan aset dapat diukur secara handal. Aset tetap dihentikan pengakuannya pada saat dilepaskan atau ketika tidak ada manfaat ekonomis masa depan yang diharapkan dari penggunaan atau pelepasannya. Laba atau rugi yang timbul dari penghentian pengakuan aset dimasukkan dalam laporan laba rugi dan penghasilan komprehensif lainnya konsolidasian interim pada periode aset tersebut dihentikan pengakuannya.

At the end of each reporting period, the assets' residual values, useful lives and method of depreciation are reviewed, and if appropriate, adjusted prospectively.

Land rights are stated at cost and are not depreciated.

Construction-in-progress is stated at cost and presented as part of "Fixed Assets" in the interim consolidated statement of financial position. The cost of repairs and maintenance is charged to profit or loss as incurred; replacement or major inspection costs are capitalized when incurred if it is probable that future economic benefits associated with the costs will flow to the Group and the cost of the item can be reliably measured. An item of fixed assets is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is included in the interim consolidated statement of profit or loss and other comprehensive income in the period the assets is derecognized.

m. Goodwill

Goodwill yang timbul pada saat kombinasi bisnis diakui sebagai aset pada tanggal diperolehnya pengendalian (tanggal akuisisi). Goodwill diukur sebagai selisih dari imbalan yang dialihkan, jumlah setiap kepentingan nonpengendali pada pihak yang diakuisisi dan dalam hal bisnis kombinasi yang dilakukan secara bertahap pada nilai wajar dari kepentingan ekuitas yang sebelumnya dimiliki pihak pengakuisisi pada pihak yang diakuisisi (jika ada) atas jumlah selisih neto dari aset teridentifikasi yang diperoleh dan liabilitas yang diambil alih pada tanggal akuisisi.

Sesuai dengan ketentuan transisi dari PSAK No. 22 (Revisi 2010), sejak tanggal 1 Januari 2011, Kelompok Usaha:

- a) menghentikan amortisasi goodwill;
- b) mengeliminasi jumlah tercatat akumulasi amortisasi *goodwill* terkait; dan
- c) melakukan uji penurunan nilai atas *goodwill* sesuai dengan PSAK No. 48 (Revisi 2009), "Penurunan Nilai Aset".

Untuk tujuan uji penurunan nilai, goodwill dialokasikan pada setiap unit penghasil kas dari Kelompok Usaha yang diharapkan memberikan manfaat dari sinergi kombinasi bisnis tersebut. Unit penghasil kas yang telah memperoleh alokasi goodwill diuji penurunan nilainya secara tahunan, dan ketika terdapat indikasi bahwa unit tersebut mengalami penurunan nilai. Jika jumlah terpulihkan dari unit penghasil kas kurang dari jumlah tercatatnya, rugi penurunan nilai dialokasikan pertama untuk mengurangi jumlah tercatat aset atas setiap goodwill vang dialokasikan pada unit dan selanjutnya ke aset lainnya dari unit dibagi prorata atas dasar jumlah tercatat setiap aset dalam unit tersebut. Rugi penurunan nilai yang diakui atas goodwill tidak dapat dibalik pada periode berikutnya.

m. Goodwill

stated)

Goodwill arising from a business combination is recognized as an asset at the date that control is acquired (the acquisition date). Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interest in the acquiree and in the case of business combination achieved in stages, the fair value of the acquirer's previously held equity interest (if any) in the entity over the net acquisition-date amounts of the identifiable assets acquired and the liabilities assumed.

In accordance with the transitional provision of PSAK No. 22 (Revised 2010), starting January 1, 2011, the Group:

- a) ceased the amortization of goodwill;
- b) eliminated the carrying amount of the related accumulated amortization of goodwill; and
- c) performed an impairment test on goodwill in accordance with PSAK No. 48 (Revised 2009), "Impairment of Assets".

For the purpose of impairment testing, goodwill is allocated to each of the Group's cash-generating units expected to benefit from the synergies of the combination. Cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rated on the basis of the carrying amount of each asset in the unit. An impairment loss recognized for goodwill is not reversed in subsequent periods.

n. Penurunan Nilai Aset Non-Keuangan

Efektif tanggal 1 Januari 2015, Kelompok Usaha menerapkan PSAK No. 48 (Revisi 2014) tentang "Penurunan Nilai Aset". PSAK ini memberikan ketentuan pengungkapan tambahan untuk setiap aset individual (termasuk *goodwill*) atau unit penghasil kas (UPK), yang mana rugi penurunan nilai telah diakui atau dibalik sebalik periode berjalan. Penerapan PSAK yang direvisi tersebut tidak memberikan pengaruh yang berarti terhadap laporan keuangan konsolidasian interim.

Pada setiap tanggal pelaporan, Kelompok Usaha menilai apakah terdapat indikasi aset mengalami penurunan nilai. Jika terdapat indikasi tersebut, atau jika uji penurunan nilai secara tahunan disyaratkan untuk aset tertentu, maka Kelompok Usaha mengestimasi jumlah terpulihkan aset tersebut.

Jumlah terpulihkan suatu aset atau unit penghasil kas adalah jumlah yang lebih tinggi antara nilai wajar dikurangi biaya untuk menjual dan nilai pakainya. Jika jumlah terpulihkan suatu aset lebih kecil dari nilai tercatatnya, nilai tercatat aset harus diturunkan menjadi sebesar jumlah terpulihkan. Rugi penurunan nilai dan pemulihan rugi penurunan nilai diakui segera dalam laporan laba rugi dan komprehensif lain konsolidasian interim.

o. Sewa

Penentuan apakah suatu perjanjian merupakan perjanjian sewa atau perjanjian yang mengandung sewa didasarkan atas substansi perjanjian pada tanggal awal sewa dan apakah pemenuhan perjanjian tergantung pada penggunaan suatu aset dan perjanjian tersebut memberikan suatu hak untuk menggunakan aset tersebut.

Kelompok Usaha menerapkan PSAK No. 30 (Revisi 2011), "Sewa", yang mengatur apabila sewa mengandung elemen tanah dan bangunan sekaligus, entitas harus menelaah klasifikasi untuk setiap elemen secara terpisah apakah sebagai sewa pembiayaan atau sewa operasi.

n. Impairment of Non-Financial Assets

stated)

Effective January 1, 2015, the Group applied PSAK No. 48 (Reivsed 2014) "Impairment of Financial Assets". This PSAK requires additional disclosures for each individual asset (including goodwill) for a cash-generating unit (CGU), for which an impairment loss has been recognized or reversed during the period. The adoption of this revised PSAK has no significant impact on the interim consolidated financial statements.

The Group evaluates at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, or when annual impairment testing is required for certain assets, the Group estimates the recoverable amount of the asset.

The recoverable amount of an asset or a cashgenerating unit is the higher of its fair value less costs to sell and its value in use. Whenever the carrying amount of an asset exceeds its recoverable amount, the asset is considered to be impaired and is written down to its recoverable amount. Impairment loss and reversal of an impairment loss are recognized immediately in the interim consolidated statement of profit or loss and other comprehensive income.

o. Leases

The determination of whether an arrangement is, or contains a lease, is based on the substance of the arrangement at the inception date and whether the fulfillment of the arrangement is dependent on the use of a specific asset and the arrangement conveys a right to use the asset.

The Group adopted PSAK No. 30 (Revised 2011), "Lease", which stipulates when a lease includes both land and building elements, an entity should assess the classification of each element separately whether as a finance or an operating lease.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

Kelompok Usaha mengklasifikasikan sewa berdasarkan sejauh mana risiko dan manfaat yang terkait dengan kepemilikan aset sewaan berada pada *lessor* atau *lessee*, dan pada substansi transaksi daripada bentuk kontraknya.

Sewa yang mengalihkan secara substansial semua risiko dan manfaat yang terkait dengan kepemilikan lessee diklasifikasikan kepada sewa pembiayaan. Pada awal masa sewa, sewa pembiayaan dikapitalisasi sebesar nilai wajar aset sewaan atau sebesar nilai kini dari pembayaran sewa minimum, jika nilai kini lebih rendah dari nilai wajar. Pembayaran sewa minimum dipisahkan antara bagian yang merupakan beban keuangan dan bagian yang merupakan pelunasan liabilitas sehingga menghasilkan suatu tingkat bunga periodik yang konstan atas saldo liabilitas. Beban keuangan dibebankan pada laporan laba rugi dan penghasilan komprehensif lainnya konsolidasian interim. Aset sewaan yang dimiliki oleh lessee dengan dasar sewa pembiayaan dicatat pada akun aset tetap dan disusutkan sepanjang masa manfaat dari aset sewaan tersebut atau periode masa sewa, mana yang lebih pendek, jika tidak ada kepastian yang memadai bahwa lessee akan mendapatkan hak kepemilikan pada akhir masa sewa.

Sewa yang tidak mengalihkan secara substansial seluruh risiko dan manfaat yang terkait dengan kepemilikan aset diklasifikasikan sebagai sewa operasi. Dengan demikian, pembayaran sewa diakui dalam laba rugi dengan dasar garis lurus (*straightline basis*) selama masa sewa.

p. Pengakuan Pendapatan dan Beban

Pendapatan diakui bila besar kemungkinan manfaat ekonomi akan diperoleh Kelompok Usaha dan jumlahnya dapat diukur secara handal. Pendapatan diukur pada nilai wajar imbalan yang diterima, tidak termasuk diskon, rabat dan pajak penjualan (PPN).

Pendapatan iklan diakui pada saat iklan yang bersangkutan ditayangkan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Group classifies leases based on the extent to which risks and rewards incidental to the ownership of a leased asset are vested upon the lessor or the lessee, and the substance of the transaction rather than the form of the contract.

Leases that transfer substantially all the risks and benefits incidental to ownership of the leased item to the lessee are classified as finance leases. Finance leases are capitalized at the inception of the lease at the fair value of the leased assets or at the present value of the minimum lease payments if the present value is lower than the fair value. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recorded in the interim consolidated statement of profit or loss and other comprehensive income. Leased assets held by the lessee under finance leases are included in fixed assets and depreciated over the estimated useful life of the assets or the lease term, whichever is shorter, if there is no reasonable certainty that lessee will obtain ownership by the end of the lease term.

Leases that do not transfer substantially all the risks and benefits incidental to ownership of the leased item are classified as operating leases. Accordingly, the related lease payments are recognized in profit or loss on a straight-line basis over the lease term.

p. Revenue and Expense Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received, excluding discounts, rebates and value-added taxes (VAT).

Advertisement revenue is recognized when the advertisement is aired.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

Penjualan materi program diakui pada saat penyerahan materi kepada pelanggan atau pada saat produksi selesai, sesuai dengan keadaannya, berdasarkan syarat dalam perjanjian tersebut.

Uang muka yang diterima dari pelanggan dicatat sebagai "Uang Muka Pelanggan" pada laporan posisi keuangan konsolidasian interim.

Beban diakui pada saat terjadinya (metode akrual).

q. Imbalan Kerja

Efektif tanggal 1 Januari 2015, Kelompok Usaha menerapkan PSAK No. 24 (Revisi 2013) tentang "Imbalan Kerja". Kelompok Usaha menerapkan PSAK No. 24 (Revisi 2013) untuk menentukan liabilitas imbalan kerja sesuai dengan Undangundang Ketenagakerjaan No. 13/2003 ("Undangundang") tanggal 25 Maret 2003. PSAK No. 24 (Revisi 2013) mensyaratkan beban imbalan pascakerja berdasarkan Undang-undang ditentukan dengan menggunakan metode aktuarial "*Projected Unit Credit*".

Ketentuan transisi diterapkan pada penerapan PSAK No. 24 (Revisi 2013) untuk pertama kali. Kelompok Usaha telah menerapkan ketentuan transisi yang relevan dan penerapan PSAK No. 24 (Revisi 2013) memberikan pengaruh yang berarti terhadap laporan keuangan konsolidasian interim Kelompok Usaha. Kolompok Usaha menyajikan kembali jumlahjumlah komparatif secara retrospektif (Catatan 2c).

Pengukuran kembali keuntungan atau kerugian aktuaria segera diakui pada pendapatan komprehensif lain. Pengukuran kembali tidak direklasifikasikan ke laporan laba rugi.

Biaya jasa lalu yang timbul dari pengenalan suatu program manfaat pasti, perubahan kewajiban imbalan dan pembatasan dari program yang sudah diakui dalam laporan laba rugi ketika rencana amandemen atau pengurangan terjadi atau ketika restrukturisasi atau penghentian biaya terkait diakui, yang mana terjadi sebelumnya.

r. Income Taxes

Effective January 1, 2015, the Group has applied PSAK No. 46 (Revisied 2014), "Income Taxes". This PSAK provides additional discussion on deferred tax asset and liability arising from a non-depreciable asset measured using the revaluation model, and from investment property that is measured using the fair value model. This PSAK also removes the criteria of final tax.

Current tax expense is provided based on the estimated taxable income for the period.

Current tax assets and current tax liabilities are offset if, and only if, the entity has a legally enforceable right to set off the recognized amounts; and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred tax assets and liabilities are recognized for temporary differences between the financial and the tax bases of assets and liabilities at each reporting date. Future tax benefits, such as the carry-forward of unused tax losses, are also recognized to the extent that realization of such benefits is probable.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the end of reporting period.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax item is recognized in correlation to the underlying transaction, either in other comprehensive income or directly in equity.

u. Provisions and Contingencies

Provisions are reviewed at each end of reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision is reversed.

Contingent assets and liabilities are not recognized in the interim consolidated financial statements. 3. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING

Penyusunan laporan keuangan konsolidasian interim sesuai dengan Standar Akuntansi Keuangan di Indonesia mewajibkan manajemen untuk membuat pertimbangan, estimasi dan asumsi yang mempengaruhi jumlah-jumlah yang dilaporkan dalam laporan keuangan. Sehubungan dengan adanya ketidakpastian yang melekat dalam membuat estimasi, hasil sebenarnya yang dilaporkan di masa mendatang dapat berbeda dengan jumlah estimasi yang dibuat.

Kelompok Usaha mendasarkan asumsi dan estimasi pada parameter yang tersedia pada saat laporan keuangan konsolidasian interim disusun. Asumsi dan situasi mengenai perkembangan masa depan mungkin berubah akibat perubahan pasar atau situasi diluar kendali Kelompok Usaha. Perubahan tersebut dicerminkan dalam asumsi terkait pada saat terjadinya.

Pertimbangan, estimasi dan asumsi berikut ini dibuat oleh manajemen dalam rangka penerapan kebijakan akuntansi Kelompok Usaha yang memiliki pengaruh paling signifikan atas jumlah yang diakui dalam laporan keuangan konsolidasian interim:

Menentukan klasifikasi aset dan liabilitas keuangan

Kelompok Usaha menetapkan klasifikasi atas aset dan liabilitas tertentu sebagai aset keuangan dan liabilitas keuangan dengan mempertimbangkan apakah definisi yang ditetapkan PSAK No. 55 dipenuhi. Dengan demikian, aset keuangan dan liabilitas keuangan diakui sesuai dengan kebijakan akuntansi Kelompok Usaha. seperti diungkapkan pada Catatan 2g.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of the interim consolidated financial statements, in conformity with Indonesian Financial Accounting Standards, requires management to make judgments, estimations and assumptions that affect amounts reported therein. Due to the inherent uncertainty in making estimates, actual results reported in future periods may differ from those estimates.

The Group based its assumptions and estimates on parameters available when the interim consolidated prepared. financial statements were Existing circumstances and assumptions about future developments may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions as they occur.

The following judgments, estimates and assumptions made by management in the process of applying the Group's accounting policies have the most significant effects on the amounts recognized in the interim consolidated financial statements:

<u>Determining classification of financial assets and</u> financial liabilities

The Group determines the classifications of certain assets and liabilities as financial assets and financial liabilities by judging if they meet the definition set forth in PSAK No. 55. Accordingly, the financial assets and financial liabilities are accounted for in accordance with the Group's accounting policies disclosed in Note 2g.

3. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING (Lanjutan)

Menentukan nilai wajar dan perhitungan amortisasi biaya perolehan dari instrumen keuangan

Kelompok Usaha mencatat aset dan liabilitas keuangan tertentu pada nilai wajar dan pada biaya perolehan yang diamortisasi, yang mengharuskan penggunaan estimasi akuntansi. Sementara komponen signifikan atas pengukuran nilai wajar dan asumsi yang digunakan dalam perhitungan amortisasi biaya perolehan ditentukan menggunakan bukti obyektif yang dapat diverifikasi, jumlah nilai wajar atau amortisasi dapat berbeda bila Kelompok Usaha menggunakan metodologi penilaian atau asumsi yang berbeda. Perubahan tersebut dapat mempengaruhi secara langsung laba rugi Kelompok Usaha (Catatan 28).

Menilai jumlah terpulihkan dari aset keuangan

Kelompok Usaha mengevaluasi akun piutang tertentu yang diketahui bahwa pelanggan tertentu tidak dapat memenuhi kewajiban keuangannya. Dalam hal tersebut, Usaha menggunakan pertimbangan, berdasarkan fakta dan situasi yang tersedia, termasuk namun tidak terbatas pada, jangka waktu hubungan dengan pelanggan dan status kredit dari pelanggan berdasarkan catatan kredit dari pihak ketiga yang tersedia dan faktor pasar yang telah diketahui, untuk mencatat penyisihan spesifik atas pelanggan terhadap jumlah terutang guna mengurangi jumlah piutang yang diharapkan dapat diterima oleh Kelompok Usaha. Penyisihan spesifik ini dievaluasi kembali dan disesuaikan jika tambahan informasi yang diterima mempengaruhi jumlah penyisihan atas penurunan nilai piutang (Catatan 7 dan 8).

Menentukan amortisasi persediaan materi program

Persediaan materi program dengan pembelian secara putus untuk program film, sinetron dan program serial, diamortisasi berdasarkan basis akselerasi selama jumlah penayangan yang diharapkan, sedangkan program dibawah perjanjian lisensi diamortisasi berdasarkan metode garis lurus selama periode lisensi atau berdasarkan jumlah penayangan, mana yang lebih dahulu. Amortisasi tersebut adalah secara umum diharapkan dalam industri dimana Kelompok Usaha menjalankan bisnisnya. Perubahan dalam belanja iklan, penjualan waktu tayang, peringkat, pangsa pemirsa dan perkembangan teknologi dapat mempengaruhi amortisasi persediaan materi program dan karenanya metode amortisasi tersebut di masa depan mungkin direvisi (Catatan 9).

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)

<u>Determining fair value and calculation of cost</u> <u>amortization of financial instruments</u>

The Group records certain financial assets and liabilities at fair values and at amortized costs, which require the use of accounting estimates. While significant components of fair value measurement and assumptions used in the calculation of cost amortization were determined using verifiable objective evidence, the fair value or amortization amount would differ if the Group utilized different valuation methodology or assumptions. Such changes would directly affect the Group's profit or loss (Note 28).

Assessing recoverable amounts of financial assets

The Group evaluates specific accounts receivable where it has information that certain customers are unable to meet its financial obligations. In these cases, the Group uses judgment, based on available facts and circumstances, including but not limited to, the length of its relationship with the customer and the customer's current credit status based on any available third party credit reports and known market factors, to record specific provisions for customers against amounts due to reduce its receivable amounts that the Group expects to collect. These specific provisions are re-evaluated and adjusted as additional information received affects the provision for impairment (Notes 7 and 8).

<u>Determining amortization method of program material</u> inventories

Program material inventories for outright purchased programs such as film programs, sinetrons and series programs are amortized on an accelerated basis over the number of expected telecasts, while programs under license arrangements are amortized based on the straight-line method over the periods of the related license or number of telecasts, whichever is earlier. The amortization practices are commonly applied in the industry in which the Group conducts its business. Changes in advertising expenditure, sale of airtime, rating, audience share and technological development could impact on the amortization method of program material inventories and therefore, the amortization method could be revised in the future (Note 9).

3. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING (Lanjutan)

Menentukan metode penyusutan dan estimasi umur manfaat aset tetap

Biaya perolehan aset tetap disusutkan dengan menggunakan metode garis lurus berdasarkan taksiran masa manfaat ekonomisnya. Manajemen mengestimasi masa manfaat ekonomis aset tetap antara tiga (3) sampai dengan dua puluh (20) tahun. Ini adalah umur yang secara umum diharapkan dalam industri dimana Kelompok Usaha menjalankan bisnisnya. Perubahan tingkat pemakaian dan perkembangan teknologi dapat mempengaruhi masa manfaat ekonomis dan nilai sisa aset, dan karenanya biaya penyusutan masa depan mungkin direvisi (Catatan 11).

Alokasi harga beli dalam suatu kombinasi bisnis

Akuntansi akuisisi mensyaratkan penggunaan estimasi dan pertimbangan akuntansi untuk mengalokasikan harga perolehan terhadap nilai pasar wajar dari aset dan liabilitas yang teridentifikasi dari entitas yang diakuisisi. Setiap kelebihan dari harga perolehan atas nilai pasar wajar yang diestimasikan dari aset neto yang diakuisisi diakui sebagai *goodwill* dalam laporan posisi keuangan konsolidasian interim. Dengan demikian, pertimbangan yang dibuat dalam mengestimasi nilai pasar wajar yang diatribusikan ke aset dan liabilitas entitas yang diakuisisi dapat mempengaruhi kinerja keuangan Kelompok Usaha secara material (Catatan 2d).

Menilai jumlah terpulihkan aset non-keuangan

Penyisihan keusangan persediaan materi program diestimasi berdasarkan fakta dan situasi yang tersedia, termasuk namun tidak terbatas kepada, kondisi fisik persediaan yang dimiliki, harga jual pasar, dan estimasi biaya penyelesaian. Provisi dievaluasi kembali dan disesuaikan jika terdapat tambahan informasi yang mempengaruhi jumlah yang diestimasi (Catatan 9).

Jumlah terpulihkan aset tetap dan *goodwill* didasarkan pada estimasi dan asumsi khususnya mengenai prospek pasar dan arus kas terkait dengan aset. Estimasi arus kas masa depan mencakup perkiraan mengenai pendapatan masa depan. Setiap perubahan dalam asumsi-asumsi ini mungkin memiliki dampak material terhadap pengukuran jumlah terpulihkan dan bisa mengakibatkan penyesuaian penyisihan penurunan nilai yang sudah dibukukan (Catatan 11, 12 dan 13).

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)

stated)

<u>Determining depreciation method and estimated useful lives of fixed assets</u>

The costs of fixed assets are depreciated on a straightline basis over their estimated useful lives. Management properly estimates the useful lives of these fixed assets to be within three (3) to twenty (20) years. These are common life expectancies applied in the industry in which the Group conducts its business. Changes in the expected level of usage and technological development could impact on the useful economic lives and residual values of these assets, and therefore future depreciation charges could be revised (Note 11).

Purchase price allocation in a business combination

Accounting for acquisitions requires extensive use of accounting estimates and judgments to allocate the purchase price to the fair market values of the acquiree's identifiable assets and liabilities at the acquisition date. Any excess in the purchase price over the estimated fair market values of the net assets acquired is recorded as goodwill in the interim consolidated financial statements. Thus, the numerous judgments made in estimating the fair market value to be assigned to the acquiree's assets and liabilities can materially affect the Group's financial performance (Note 2d).

Assessing recoverable amounts of financial assets

Allowance for obsolescence of program material inventories is estimated based on available facts and circumstances, including but not limited to, the inventories' own physical condition, their market selling prices, and estimated costs of completion. The provisions are re-evaluated and adjusted as additional information received affects the amount estimated (Note 9).

The recoverable amounts of fixed assets and goodwill are based on estimates and assumptions regarding in particular the expected market outlook and future cash flows associated with the assets. Estimated future cash flows include estimates of future revenues. Any changes in these assumptions may have a material impact on the measurement of the recoverable amount and could result in adjustments to the provision of impairment already booked (Notes 11, 12 and 13).

3. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING (Lanjutan)

Pada tanggal 30 Juni 2015 dan 31 Desember 2014, Kelompok Usaha menilai bahwa tidak ada indikasi penurunan nilai persediaan materi program, uang muka pembelian peralatan, aset tetap dan *goodwill*.

Estimasi beban pensiun dan imbalan kerja

Penentuan liabilitas dan biaya pensiun dan liabilitas imbalan kerja Kelompok Usaha bergantung pada pemilihan asumsi yang digunakan dalam menghitung jumlah-jumlah tersebut. Asumsi tersebut termasuk antara lain, tingkat diskonto, tingkat kenaikan gaji tahunan, tingkat pengunduran diri karyawan tahunan, tingkat kecacatan, umur pensiun dan tingkat kematian. Sementara Kelompok Usaha berkeyakinan bahwa asumsi tersebut adalah wajar dan sesuai, perbedaan signifikan pada hasil aktual atau perubahan signifikan dalam asumsi yang ditetapkan Kelompok Usaha dapat mempengaruhi secara material liabilitas dan beban imbalan kerja (Catatan 19).

Menentukan pajak penghasilan

Pertimbangan signifikan dilakukan dalam menentukan provisi atas pajak penghasilan badan. Terdapat transaksi dan perhitungan tertentu yang penentuan pajak akhirnya adalah tidak pasti sepanjang kegiatan usaha normal. Kelompok Usaha mengakui liabilitas yang diharapkan atas pajak penghasilan badan berdasarkan estimasi apakah akan terdapat tambahan pajak penghasilan badan (Catatan 18).

Kelompok Usaha menelaah aset pajak tangguhan pada setiap tanggal pelaporan dan mengurangi nilai tercatat sepanjang tidak ada kemungkinan bahwa laba kena pajak memadai untuk mengkompensasi sebagian atau seluruh aset pajak tangguhan. Kelompok Usaha juga menelaah waktu yang diharapkan dan tarif pajak atas pemulihan perbedaan temporer dan menyesuaikan pengaruh atas pajak tangguhan yang sesuai (Catatan 18).

Mengevaluasi provisi dan kontinjensi

Kelompok Usaha melakukan pertimbangan untuk membedakan antara provisi dan kontinjensi serta mempersiapkan provisi yang sesuai untuk proses hukum atau kewajiban konstruktif, jika ada, sesuai dengan kebijakan provisinya dan mempertimbangkan risiko dan ketidakpastian yang relevan.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)

stated)

As of June 30, 2015 and December 31, 2014, the Group assessed that there was no indication of impairment of its program material inventories, advances for purchase of equipment, fixed assets and goodwill.

Estimation of pension cost and employee benefits

The determination of the Group's liabilities and cost for pension and employee benefits is dependent on its selection of certain assumptions used in calculating such amounts. These assumptions include among others, discount rates, annual salary increase rate, annual employee turn-over rate, disability rate, retirement age and mortality rate. While the Group believes that its assumptions are reasonable and appropriate, significant differences in the Group's actual results or significant changes in the Group's assumptions may materially affect its employee benefits liability and expenses (Note 19).

Determining income taxes

Significant judgment is involved in determining provision for corporate income tax. There are certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognizes liabilities for expected corporate income tax issues based on estimates of whether additional corporate income tax will be due (Note 18).

The Group reviews its deferred tax assets at each reporting date and reduces the carrying amount to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilized. The Group also reviews the expected timing and tax rates upon reversal of temporary differences and adjusts the impact of deferred tax accordingly (Note 18).

Evaluating provisions and contingencies

The Group exercises its judgment to distinguish between provisions and contingencies and sets up appropriate provisions for its legal and constructive obligations, if any, in accordance with its policies on provisions and takes relevant risks and uncertainty into account.

4. AKUISISI, DIVESTASI DAN RESTRUKTURISASI ENTITAS ANAK

Pada tanggal 23 Juni 2009, yang selanjutnya diubah pada tanggal 18 Agustus 2009 dan 28 September 2009, PT Cakrawala Andalas Televisi ("CAT") dan PT Asia Global Media ("AGM") mengadakan Perjanjian Restrukturisasi dengan PT Bakrie Global Ventura ("BGV") dan PT Bakrie Capital Indonesia ("BCI") yang bersama-sama akan disebut sebagai "Pihak BGV"; Promised Result Limited ("PR"), Good Respond Limited ("GR") dan Fast Plus Limited ("FP") yang bersama-sama akan disebut sebagai "Pihak Star TV"; Asian Broadcasting FZ LLC ("Star HK"); dan Perusahaan direstrukturisasi, antara lain, kepentingan bisnis dari Pihak BGV dan Pihak Star TV atas CAT dan AGM. Manajemen berpendapat bahwa persediaan materi program tidak perlu diasuransikan terhadap risiko kerugian atas kebakaran atau pencurian karena nilai wajar persediaan materi program tidak dapat diterapkan sebagai dasar untuk menentukan nilai pertanggungan asuransi dan bila terjadi kebakaran atau pencurian atas persediaan materi program yang dibeli, CAT dapat meminta penggantian dari distributor bersangkutan selama persediaan materi program tersebut belum ditayangkan dan belum habis masa berlakunya.

Management believes that the material program inventories do not need to be insured against risk of loss from fire or theft since the fair value of the program material inventories could not be established for the purpose of insurance. If such risk occurs, CAT can request a replacement from the relevant distributor for as long as the program material inventories have not yet been aired or expired.

Berdasarkan PSAK 60, "Instrumen Keuangan: Pengungkapan", terdapat tingkatan hirarki nilai wajar sebagai berikut:

- a) harga kuotasian (tidak disesuaikan) dalam pasar aktif untuk aset atau liabilitas yang identik (tingkat 1).
- b) input selain harga kuotasian yang termasuk dalam tingkat 1 yang dapat diobservasi untuk aset atau liabilitas, baik secara langsung (misalnya harga) atau secara tidak langsung (misalnya derivasi dari harga pasar) (tingkat 2), dan
- c) input untuk aset atau liabilitas yang bukan berdasarkan data pasar yang dapat diobservasi (input yang tidak dapat diobservasi) (tingkat 3).

Metode dan asumsi berikut ini digunakan untuk mengestimasi nilai wajar untuk setiap kelompok instrumen keuangan sepanjang nilai tersebut dapat diestimasi: Based on PSAK 60, "Financial Instruments: Disclosures", there are levels of fair value hierarchy as follows:

- a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1),

- c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

The following methods and assumptions were used to estimate the fair value of each class of financial instrument for which it is practicable to do so:

Aset dan liabilitas keuangan jangka panjang:

• Liabilitas keuangan jangka panjang dengan suku bunga tetap (liabilitas pembiayaan konsumen)

Nilai wajar dari liabilitas keuangan ini ditentukan dengan mendiskontokan arus kas masa datang menggunakan suku bunga yang berlaku dari transaksi pasar yang dapat diamati untuk instrumen dengan persyaratan, risiko kredit dan jatuh tempo yang sama.

 Aset dan liabilitas keuangan jangka panjang lainnya (investasi jangka pendek, piutang dan utang pihak berelasi dan aset tidak lancar lainnya)

Estimasi nilai wajar didasarkan pada nilai diskonto dari arus kas masa datang yang disesuaikan untuk mencerminkan risiko pihak lawan (untuk aset keuangan) dan risiko kredit Kelompok Usaha (untuk liabilitas keuangan) dan menggunakan suku bunga bebas risiko (*risk-free rates*) dari instrumen yang serupa.

Aset tidak lancar lainnya dan investasi jangka pendek yang tidak dikuotasi di harga pasar dan nilai wajarnya tidak dapat diukur secara handal tanpa menimbulkan biaya yang berlebihan, dicatat berdasarkan nilai nominal dikurangi penurunan nilai.

Pada tanggal 30 Juni 2015 dan 31 Desember 2014, Kelompok Usaha tidak memiliki instrumen keuangan yang diukur pada nilai wajar. PT INTERMEDIA CAPITAL Tbk

28. FINANCIAL INSTRUMENTS (Continued)

stated)

Short-term financial assets and liabilities:

• Short-term financial instruments with remaining maturities of one year or less (cash and cash equivalent, trade receivables, other receivables, trade payables, other payables, and accrued expenses).

These financial instruments approximate to their carrying amounts largely due to their short-term maturities.

Long-term financial assets and liabilities:

• Long-term fixed-rate financial liabilities (consumer finance liabilities)

The fair value of these financial liabilities is determined by discounting future cash flows using applicable rates from observable current market transactions for instruments with similar terms, credit risk and remaining maturities.

• Other long-term financial assets and liabilities (short-term investment, due from and due to related parties and other non-current assets)

Estimated fair value is based on the discounted value of future cash flows adjusted to reflect counterparty risk (for financial assets) and the Group's own credit risk (for financial liabilities) and using risk-free rates for similar instruments.

Other non-current assets and short-term investment that are not stated at quoted market price and whose fair value cannot be reliably measured without incurring excessive costs, are carried at their nominal amounts less any impairment losses.

As of June 30, 2015 and December 31, 2014, the Group had no financial instruments measured at fair value.
