#### 2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING

### a. Dasar Penyusunan Laporan Keuangan Konsolidasian dan Pernyataan Kepatuhan

Laporan keuangan konsolidasian telah disusun sesuai dengan Standar Akuntansi Keuangan ("SAK"), yang mencakup Pernyataan dan Interpretasi yang diterbitkan oleh Dewan Standar Akuntansi Keuangan Ikatan Akuntan Indonesia, termasuk beberapa standar baru atau yang direvisi, yang berlaku efektif sejak tanggal 1 Januari 2015, dan peraturan-peraturan serta Pedoman Penyajian dan Pengungkapan Laporan Keuangan yang diterbitkan oleh Otoritas Jasa Keuangan (dahulu BAPEPAM-LK).

Laporan keuangan konsolidasian, kecuali laporan arus kas konsolidasian, telah disusun secara akrual dengan menggunakan konsep biaya perolehan (historical cost), kecuali untuk akun-akun tertentu yang dicatat berdasarkan basis lain seperti yang diungkapkan pada kebijakan akuntansi di masingmasing akun terkait.

Laporan arus kas konsolidasian disusun dengan menggunakan metode langsung, dan dikelompokkan ke dalam aktivitas operasi, investasi dan pendanaan.

Mata uang penyajian yang digunakan dalam penyusunan laporan keuangan konsolidasian adalah mata uang Rupiah ("Rp"), yang juga merupakan mata uang fungsional Kelompok Usaha.

Kebijakan akutansi yang digunakan dalam penyusunan laporan keuangan konsolidasian interim konsisten dengan diikuti dalam penyusunan laporan keuangan konsolidasian interim tahunan Kelompok Usaha pada tanggal dan untuk tahun yang berakhir 31 Desember 2014, kecuali untuk penerapan standar akutansi amandemen yang relevan efektif 1 Januari 2015 yang memiliki dampak signifikan terhadap laporan keuangan konsolidasian interim Kelompok Usaha sebagai berikut:

• PSAK No. 1 (penyesuaian 2013), Penyajian Laporan Keuangan.

# 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### a. Basis of Preparation of the Consolidated Financial Statements and Statement of Compliance

The consolidated financial statements have been prepared in accordance with Financial Accounting Standards ("SAK"), which comprise the Statements and Interpretations issued by the Board of Financial Accounting Standards of the Indonesian Institute of Accountants, including applicable new or revised standards effective January 1, 2014 and the regulations and the Financial Statement Presentation and Disclosure Guidelines issued by the Financial Services Authority (formerly BAPEPAM-LK).

Consolidated financial statements, except for consolidated statements of cash flows, have been prepared on an accrual basis of accounting using the historical cost concept, except for certain accounts that are measured on the basis described in the related accounting policies.

Consolidated statements of cash flows are prepared using the direct method, and classified into operating, investing and financing activities.

The presentation currency used in the preparation of the consolidated financial statements is Indonesian Rupiah ("Rp"), which is also the functional currency of the Group.

The accounting policies used in the preparation of the interim consolidated financial statements are consistent with those followed in the preparation of the Group's annual interim consolidated financial statements as of and for the year ended December 31, 2014, except for the adoption of relevant accounting standards amendments effective January 1, 2015 which had significant impact on the Group's interim consolidated financial statements as follows:

• PSAK No. 1 (revised 2013), Presentation of Financial Statements.

(Disajikan dalam ribuan Rupiah, kecuali dinyatakan lain)

#### 2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING

PSAK No. 1 (Revisi 2013) memperkenalkan terminologi baru untuk laporan laba rugi komprehensif menjadi laporan laba rugi dan penghasilan komprehensif lain. PSAK No. 1 mengharuskan tambahan pengungkapan dimana pos-pos dari penghasilan komprehensif lain dikelompokkan menjadi dua kategori: (1) Tidak akan direklasifikasi lebih lanjut ke laba rugi; dan (2) akan direklasifikasi lebih lanjut ke laba rugi ketika kondisi tertentu terpenuhi.

Penerapan atau PSAK No. 1 (Revisi 2013) memiliki dampak yang signifikan terhadap penyajian laporan keuangan konsolidasian interim Kelompok Usaha.

PSAK No. 24 (Revisi 2013), Imbalan Kerja.

Perubahan paling signifikan dalam PSAK No. 24 terkait kewajiban manfaat pasti dan aset program. Amandemen mensyaratkan pengakuan perubahan dalam kewajiban manfaat pasti dan nilai wajar aset program ketika amandemen terjadi, dan karenanya menghapus pendekatan koridor dan mempercepat pengakuan biaya jasa lalu. Amandemen tersebut mensyaratkan seluruh keuntungan dan kerugian aktuaria diakui segera melalui penghasilan komprehensif lain.

Penerapan PSAK No. 24 (Revisi 2013), Imbalan Kerja memiliki dampak yang signifikan terhadap laporan keuangan konsolidasian interim Kelompok Usaha dan telah diterapkan secara retrospektif (Catatan 2c).

Ketika entitas menerapkan suatu kebijakan akuntansi secara retrospektif atau membuat penyajian kembali pos-pos laporan keuangan atau ketika entitas mereklasifikasi pos-pos dalam laporan keuangannya maka laporan posisi keuangan pada awal periode komparatif disajikan.

# 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

PSAK No. 1 (Revised 2013) introduced new terminology for the statement of comprehensive income which was renamed as a "statement of profit or loss and other comprehensive income". PSAK No. 1 requires additional disclosures of other comprehensive income which is grouped into two categories: (1) items that will not be reclassified subsequently to profit or loss; and (2) items that may be reclassified subsequently to profit or loss when specific conditions are met.

The adoption or PSAK No. 1 (Revised 2013) had significant impact on the presentation of the Group's interim consolidated financial statement.

• PSAK No. 24 (Revised 2013), Employee Benefits.

The significant revision in PSAK No. 24 relating to benefit obligation and plan assets. The amendments required the recognition of changes in defined benefit obligations and in fair value of plan assets when they occur, and hence eliminated the use of 'corridor approach' and accelerated the recognition of past service costs. The amendments require all actuarial gains and losses to be recognized immediately through other comprehensive income.

The adoption of PSAK No. 24 (Revised 2013), Employee Benefits had significant impact on the the Group's interim consolidated financial statement and had been restrospectively applied (Note 2c).

When the entity adopts accounting policy retrospectively or restates items in its financial statements or the entity reclassifies the items in its financial statements, the statements of financial position at the beginning of comparative period is presented.

### b. Prinsip-Prinsip Konsolidasian

PENTING (Lanjutan)

Efektif tanggal 1 Januari 2015, Kelompok Usaha menerapkan PSAK No. 65 "Laporan Keuangan Konsolidasian". PSAK ini mengantikan porsi PSAK No. 4 (Revisi 2009) mengenai pengaturan akuntansi untuk laporan keuangan konsolidasian, menetapkan prinsip penyusunan dan penyajian laporan keuangan konsolidasian ketika entitas mengendalikan satu atau lebih entitas lain. PSAK tersebut tidak memberikan pengaruh yang berarti terhadap laporan keuangan konsolidasian interim.

Laporan keuangan konsolidasian interim menggabungkan seluruh Entitas Anak yang dikendalikan oleh Perusahaan. Pengendalian dianggap ada ketika Perusahaan memiliki, secara langsung atau tidak langsung melalui Entitas Anak, sebagai berikut:

- (a) kekuasaan yang melebihi setengah hak suara sesuai perjanjian dengan investor lain;
- (b) kekuasaan untuk mengatur kebijakan keuangan dan operasional entitas berdasarkan anggaran dasar atau perjanjian;
- (c) kekuasaan untuk menunjuk atau mengganti sebagian besar dewan direksi dan dewan komisaris atau setara dengan badan pengatur setara dan mengendalikan entitas melalui dewan atau badan tersebut; atau
- (d) kekuasaan untuk memberikan suara mayoritas pada rapat dewan direksi dan dewan komisaris atau setara dengan badan pengatur setara dan mengendalikan entitas melalui dewan direksi dan dewan komisaris atau badan tersebut.

# 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### b. Principles of Consolidation

Effective January 1, 2015, the Group adopted PSAK No. 65 "Consolidated Financial Statements". This PSAK replaces the portion of PSAK No. 4 (Revised 2009) that addresses the accounting for consolidated financial statements, established the principles for the presentation and preparation of consolidated financial statements when an entity controls one or more other entities. The adoption of this new PSAK has no significant impact on the interim consolidated financial statements.

The interim consolidated financial statements include all Subsidiaries that are controlled by the Company. Control is presumed to exist when the Company, directly or indirectly through Subsidiaries, has the following:

- (a) power over more than half of the voting rights by virtue of an agreement with other investors;
- (b) power to govern the financial and operating policies of the entity under a statute or an agreement;
- (c) power to appoint or remove the majority of the members of the board of directors and board of commissioners or equivalent governing body and control of the entity is by that board or body; or
- (d) power to cast the majority of votes at meetings of the board of directors and board of commissioners or equivalent governing body and control of the entity is by that board or body.

Subsidiaries are consolidated from the date of their acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Non-controlling interest represents a portion of the profit or loss and net assets not attributable to the parent and is presented separately in the consolidated statement of comprehensive income, and within equity in the consolidated statement of financial position, separate from equity attributable to the parent.

# 2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

Seluruh laba rugi komprehensif diatribusikan pada pemilik entitas induk dan pada kepentingan nonpengendali bahkan jika hal ini mengakibatkan kepentingan nonpengendali mempunyai saldo defisit.

Seluruh saldo akun dan transaksi yang material antar entitas yang dikonsolidasi telah dieliminasi.

Perubahan dalam bagian kepemilikan entitas induk pada entitas anak yang tidak mengakibatkan hilangnya pengendalian dicatat sebagai transaksi ekuitas, dimana nilai tercatat kepentingan pengendali dan nonpengendali disesuaikan untuk mencerminkan perubahan bagian relatifnya atas entitas anak. Perbedaan antara jumlah kepentingan nonpengendali disesuaikan dan nilai wajar imbalan yang diberikan atau diterima diakui secara langsung dalam ekuitas dan diatribusikan pada pemilik entitas induk.

Jika entitas induk kehilangan pengendalian atas entitas anak, maka entitas induk menghentikan pengakuan aset (termasuk *goodwill*), liabilitas dan komponen entitas terkait dengan entitas anak tersebut, dan mengukur setiap sisa investasi pada entitas anak terdahulu pada nilai wajarnya pada tanggal hilangnya pengendalian. Keuntungan atau kerugian yang terjadi diakui sebagai laba rugi yang dapat diatribusikan pada entitas induk.

#### c. Penyajian Kembali Laporan Keuangan Konsolidasian

Efektif mulai tanggal 1 Januari 2015, Kelompok Usaha telah menerapkan secara retrospektif "PSAK No. 24 (Revisi 2013): Imbalan kerja" ("Revisi PSAK No. 24").

Revisi PSAK No. 24 menyediakan, antara lain, sebagai berikut :

- 1. Laba dan rugi aktuaria harus diakui sekarang ini sebagai pendapatan komprehensif lainnya dan dikeluarkan secara permanen dari laba rugi;
- Biaya jasa lalu yang belum vested tidak lagi dapat ditangguhkan dan diakui selama periode vesting masa depan, sebaliknya, semua biaya jasa lalu akan diakui pada saat yang lebih dulu antara ketika amandemen/kurtailmen terjadi atau biaya terminasi diakui, yang mana terjadi sebelumnya; dan

# 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Total comprehensive income is attributed to the owners of the parent and the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

All significant intercompany transactions and balances have been eliminated.

Changes in a parent's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions, in which the carrying amounts of the controlling and noncontrolling interests are adjusted to reflect the changes in their relative interests in the subsidiary. The difference between the amount by which the noncontrolling interests are adjusted and the fair value of the consideration paid or received shall be recognized directly in equity and attributed to the owners of the parent.

When a parent losses control of a subsidiary it derecognizes the assets (including goodwill), liabilities and related equity components of the former subsidiary, and measures any investment retained in the former subsidiary at its fair value at the date when control is lost. The resulting gain or loss is recognized in profit or loss attributed to the owners of the parent.

# c. Restatements of the Consolidated Financial statements

Effective January 1, 2015, the Group retrospectively applied "PSAK No. 24 (Revised 2013): Employee benefits" ("Revised PSAK No. 24").

The Revised PSAK No. 24 provides, among others, the following:

- 1. Actuarial gains and losses are now required to be recognized in full in other comprehensive income and are permanently excluded from profit or loss;
- 2. Unvested past service costs are no longer deferred and amortized over future vesting period, rather, all past service costs are recognized when the amendment or curtailment occurs or when the related restructuring or termination costs are recognized, whichever occurs earlier; and

 Pengembalian aset dana pensiun yang diharapkan tidak lagi diakui dalam laporan. Sebagai gantinya, penghasilan bunga atau beban diakui dari net aset imbalan pasti, yang dihitung dengan menggunakan tingkat diskonto untuk mengukur kewajiban pensiun.

Dengan demikian, penerapan revisi PSAK No. 24 mengakibatkan penyajian kembali laporan keuangan konsolidasian interim Kelompok Usaha sebagai berikut:

#### d. Kombinasi Bisnis

Kombinasi bisnis dicatat dengan metode akuisisi. Jika terdapat goodwill negatif, maka jumlah tersebut diakui dalam laba rugi. Goodwill tidak diamortisasi dan dilakukan uji penurunan nilai setiap tahun.

Kombinasi bisnis entitas sepengendali dicatat berdasarkan PSAK No. 38 (2012), "Kombinasi Bisnis Entitas Sepengendali," dengan menggunakan metode penyatuan kepemilikan. Selisih antara harga pengalihan dengan nilai buku dicatat dalam akun "Selisih Nilai Transaksi dengan Entitas Sepengendali" dan disajikan sebagai bagian dari "Tambahan Modal Disetor" dalam laporan posisi keuangan konsolidasian dan selanjutnya tidak dapat diakui sebagai laba rugi direalisasi maupun direklasifikasi ke saldo laba.

### (1) Aset keuangan

#### Pengakuan awal

Aset keuangan pada awalnya diakui sebesar nilai wajarnya ditambah biaya transaksi, kecuali untuk aset keuangan yang diklasifikasikan pada nilai wajar melalui laporan laba rugi yang pada awalnya diukur dengan nilai wajar. Klasifikasi aset keuangan antara lain sebagai aset keuangan yang ditetapkan untuk diukur pada pinjaman yang diberikan dan piutang atau aset keuangan tersedia untuk dijual (AFS). Kelompok Usaha menetapkan klasifikasi aset keuangannya pada saat pengakuan awal dan, sepanjang diperbolehkan dan diperlukan, ditelaah kembali pengklasifikasian aset tersebut pada setiap akhir periode pelaporan.

#### Pengukuran selanjutnya

#### • Pinjaman yang diberikan dan piutang

Pinjaman yang diberikan dan piutang diukur sebesar biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif, dikurangi dengan penurunan nilai. Keuntungan dan kerugian diakui dalam laporan laba rugi komprehensif konsolidasian pada saat pinjaman yang diberikan dan piutang dihentikan pengakuannya atau mengalami penurunan nilai, serta melalui proses amortisasi.

### • Aset keuangan tersedia untuk dijual (AFS)

Aset keuangan AFS adalah aset keuangan non derivatif yang ditetapkan sebagai tersedia untuk dijual atau yang tidak diklasifikasikan dalam tiga kategori sebelumnya. Setelah pengakuan awal, aset keuangan AFS diukur dengan nilai wajar dengan keuntungan atau kerugian yang belum terealisasi diakui dalam komponen ekuitas sampai aset keuangan tersebut dihentikan pengakuannya atau sampai diturunkan nilainya dan pada saat yang sama keuntungan atau kerugian kumulatif yang sebelumnya diakui dalam ekuitas harus diakui dalam laba rugi. Aset keuangan ini diklasifikasikan sebagai aset tidak lancar kecuali aset keuangan tersebut ditujukan untuk dilepaskan dalam waktu dua belas bulan dari tanggal laporan posisi keuangan.

#### (1) Financial assets

#### Initial recognition

Financial assets are recognized initially at fair value plus transaction costs, except for those financial assets classified as at fair value through profit or loss which are initially measured at fair value. Financial assets are classified as loans and receivables or available-for-sale financial assets (AFS). The Group determines the classification of its financial assets at initial recognition and, where allowed and appropriate, re-evaluates the designation of such assets at each end of reporting period.

#### Subsequent measurement

#### • <u>Loan and receivables</u>

Loans and receivables are carried at amortized cost using the effective interest method, less any impairment. Gains and losses are recognized in the consolidated statement of comprehensive income when the loans and receivables are derecognized or impaired, as well as through the amortization process.

### • Available-for-sale (AFS) financial assets

AFS financial assets are non-derivative financial assets that are designated as available-for-sale or are not classified in any of the three preceding categories. After initial recognition, AFS financial assets are measured at fair value with unrealized gains and losses being recognized as a component of equity until the financial assets are derecognized or until the financial assets are determined to be impaired, at which time the cumulative gains or losses previously reported in equity are included in profit or loss. These financial assets are classified as non-current assets unless the intention is to dispose of them within twelve months from the statement of financial position date.

# 2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

### Penurunan nilai aset keuangan

Pada setiap tanggal pelaporan, Kelompok Usaha mengevaluasi apakah aset keuangannya mengalami penurunan nilai.

 Aset keuangan yang diukur pada biaya perolehan diamortisasi

Jika terdapat bukti objektif penurunan nilai, maka jumlah kerugian tersebut, yang diukur sebagai selisih antara nilai tercatat aset dengan nilai kini estimasi arus kas masa datang (tidak termasuk kerugian kredit dimasa datang yang belum terjadi) yang didiskonto menggunakan suku bunga efektif yang dihitung saat pengakuan awal aset tersebut, diakui pada laba rugi.

• Aset keuangan tersedia untuk dijual (AFS)

Jika terdapat bukti obyektif bahwa aset AFS mengalami penurunan nilai, maka kerugian kumulatif yang sebelumnya diakui secara langsung dalam ekuitas harus dikeluarkan dari ekuitas dan diakui pada laba rugi.

### Penghentian pengakuan aset keuangan

Kelompok Usaha menghentikan pengakuan aset keuangan, jika dan hanya jika: hak kontraktual atas arus kas yang berasal dari aset keuangan tersebut berakhir; atau Kelompok Usaha mentransfer hak kontraktual untuk menerima arus kas yang berasal dari aset keuangan; atau tetap memiliki hak kontraktual untuk menerima arus kas yang berasal dari aset keuangan namun juga menanggung kewajiban kontraktual untuk membayar arus kas yang diterima tersebut kepada satu atau lebih pihak penerima melalui suatu kesepakatan yang memenuhi persyaratan tertentu. Ketika Kelompok Usaha mentransfer aset keuangan, maka Kelompok Usaha mengevaluasi sejauh mana kelompok Usaha tetap memiliki risiko dan manfaat atas kepemilikan aset keuangan tersebut.

# 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Impairment of financial assets

The Group evaluates at each reporting date whether any of its financial assets is impaired.

### • Available-for-sale (AFS) financial assets

If there is objective evidence of impairment, the amount of loss, which is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not been incurred) discounted at the effective interest rate computed at initial recognition of the asset, shall be recognized in profit or loss.

#### • Available-for-sale (AFS) financial assets

If there is objective evidence that an AFS asset is impaired, the cumulative loss previously recognized directly in equity is transferred from equity to profit or loss.

### Derecognition of financial assets

The Group derecognizes financial assets when, and only when: the contractual rights to the cash flows from the financial asset expire; the contractual rights to receive the cash flows of the financial asset are transferred to another entity; or the contractual rights to receive the cash flows of the financial asset are retained but a contractual obligation is assumed to pay the cash flows to one or more recipients in an arrangement that meets certain conditions. When the Group transfers a financial asset, it shall evaluate the extent to which it retains the risks and rewards of ownership of the financial asset.

#### (2) Liabilitas keuangan

#### Pengakuan awal

Kelompok Usaha mengklasifikasikan semua liabilitas keuangannya ke dalam kategori liabilitas keuangan yang diukur pada biaya perolehan diamortisasi, yang pada awalnya sebesar nilai wajar dan termasuk biaya transaksi yang dapat diatribusikan secara langsung.

### Pengukuran selanjutnya

Setelah pengakuan awal, liabilitas keuangan dalam kategori ini selanjutnya diukur pada biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif. Keuntungan dan kerugian diakui dalam laporan laba rugi komprehensif konsolidasian pada saat liabilitas tersebut dihentikan pengakuannya serta melalui proses amortisasi.

#### Penghentian pengakuan liabilitas keuangan

Kelompok Usaha menghentikan pengakuan liabilitas keuangan jika, dan hanya jika, liabilitas Kelompok Usaha dihentikan, dibatalkan atau kadaluwarsa.

#### (3) Saling hapus instrumen keuangan

Aset keuangan dan liabilitas keuangan saling hapus dan nilai netonya dilaporkan dalam laporan posisi keuangan konsolidasian jika, dan hanya jika, saat ini memiliki hak yang berkekuatan hukum untuk melakukan saling hapus atas jumlah yang telah diakui dan terdapat niat untuk menyelesaikannya secara neto, atau untuk merealisasikan aset dan menyelesaikan liabilitasnya secara simultan.

#### Subsequent measurement

After initial recognition, financial liabilities in this category are subsequently measured at amortized cost using the effective interest method. Gains and losses are recognized in the consolidated statement of comprehensive income when the liabilities are derecognized, as well as through the amortization process.

### Derecognition of financial liabilities

The Group derecognizes financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired.

#### (4) Nilai wajar dari instrument keuangan

wajar instrument keuangan diperdagangkan secara aktif di pasar keuangan yang terorganisasi, jika ada, ditentukan dengan mengacu pada kuotasi harga di pasar aktif pada penutupan bisnis pada akhir periode pelaporan. Untuk instrument keuangan yang tidak memiliki pasar aktif, nilai wajar ditentukan dengan menggunakan teknik penilaian. Teknik penilaian tersebut mencakup penggunaan transaksitransaksi pasar yang wajar antara pihak-pihak yang mengerti dan berkeinginan (arm's length market transactions); referensi atas nilai wajar terkini dari instrumen lain yang secara substansial sama; analisa arus kas yang didiskonto; atau model penilaian lain.

# (5) Instrumen keuangan yang diukur pada biaya perolehan diamortisasi

Biaya perolehan diamortisasi dihitung menggunakan metode suku bunga efektif dikurangi dengan penyisihan atas penurunan nilai. Perhitungan tersebut mempertimbangkan premium atau diskonto pada saat perolehan dan termasuk biaya transaksi dan biaya yang merupakan bagian yang tidak terpisahkan dari suku bunga efektif.

### h. Kas dan setara kas

Kas dan setara kas terdiri dari saldo kas, bank dan deposito berjangka dengan jangka waktu kurang dari tiga (3) bulan yang tidak digunakan sebagai jaminan atau dibatasi penggunaannya.

#### i. Piutang Usaha dan Piutang lain-lain

Piutang pada awalnya diakui sebesar nilai wajar dan selanjutnya diukur pada biaya perolehan diamortisasi dengan menggunakan metode bunga efektif, dikurangi penyisihan atas penurunan nilai. Penyisihan atas penurunan nilai piutang dibentuk pada saat terdapat bukti obyektif bahwa saldo piutang Kelompok Usaha tidak dapat ditagih.

#### (4) Fair value of financial instruments

The fair value of financial instruments that are actively traded in organized financial markets if any, is determined by reference to quoted market bid prices at the close of business at the end of the reporting year. For financial instruments where there is no active market, fair value is determined using valuation techniques. Such techniques may include using arm's length market transaction, reference to the current fair value of another instrument that is substantially the same, discounted cash flow analysis, or other valuation models.

## (5) Financial instruments measured at amortized

Amortized cost is computed using the effective interest method less any allowance for impairment. The calculation takes into account any premium or discount on acquisition and includes transaction costs and fees that are integral part of the effective interest rate.

### h. Cash and cash equivalent

Cash and cash equivalent consists of cash on hand, cash in banks and time deposit with original maturities within three (3) months or less that are not pledged as collateral or restricted in use.

#### i. Trade and Other Receivables

Receivables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method, less any allowance for impairment. An allowance for impairment of receivables is established when there is objective evidence that the outstanding amount of the Group's receivables will not be collected.

# 2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

Besarnya penyisihan merupakan selisih antara nilai aset tercatat dan nilai sekarang dari estimasi arus kas masa depan, didiskontokan dengan tingkat suku bunga efektif. Penurunan nilai aset tercatat dicatat di dalam akun penyisihan dan nilai kerugian diakui di dalam laba atau rugi. Ketika tidak dapat ditagih, piutang dihapuskan bersama dengan penyisihan piutang. Pemulihan nilai setelah penghapusan piutang diakui sebagai penghasilan dalam laba rugi.

#### j. Persediaan Materi Program

Persediaan materi program diukur berdasarkan nilai terendah antara nilai perolehan yang belum diamortisasi dengan nilai realisasi neto. Persediaan materi program dengan pembelian secara putus untuk program film, sinetron dan program serial, diamortisasi berdasarkan basis akselerasi selama jumlah penayangan yang diharapkan, sedangkan program dibawah perjanjian lisensi diamortisasi berdasarkan metode garis lurus selama periode lisensi atau berdasarkan jumlah penayangan, mana yang lebih dahulu. Produksi program in-house, infotainment, berita, olahraga dan program talk show, diamortisasi sepenuhnya pada saat ditayangkan. Biaya perolehan persediaan materi program yang dijual ditentukan dengan menggunakan metode identifikasi khusus.

Persediaan materi program yang telah habis masa berlakunya tetapi belum ditayangkan serta persediaan materi program yang tidak layak tayang dihapuskan dan dibebankan dalam laba rugi tahun berjalan.

### k. Biaya Dibayar Dimuka

Biaya dibayar dimuka diamortisasi sesuai masa manfaat masing-masing biaya dengan menggunakan metode garis lurus.

### l. Aset Tetap

Seluruh aset tetap awalnya diakui sebesar biaya perolehan, yang terdiri atas harga perolehan dan biaya-biaya tambahan yang dapat diatribusikan langsung untuk membawa aset ke lokasi dan kondisi yang diinginkan supaya aset tersebut siap digunakan sesuai dengan maksud manajemen.

# 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The amount of the allowance is the difference between the assets carrying amount and the present value of estimated future cash flows, discounted at the effective interest rate. The carrying amount of the receivables is reduced through the use of an allowance account, and the amount of the loss is recognized in profit or loss. When a receivable is uncollectible, it is written off against the allowance for impairment of receivables. Subsequent recoveries of amounts previously written off are credited against profit or loss.

#### i. Program Material Inventories

Program material inventories are stated at the lower of unamortized cost or net realizable value. Program material inventories for outright purchased programs such as film programs, sinetron and series programs are amortized based on an accelerated basis over the number of expected telecasts, while programs under license arrangements are amortized based on the straight line method over the years of the related license or number of telecasts, whichever is earlier. In-house production, infotainment, news, sports and talk show programs are amortized in full when aired. Cost of program material inventories sold is determined using the specific identification method.

Expired program inventories that have not been aired and unsuitable program inventories are written off and charged to the current year profit or loss.

### k. Prepaid Expenses

Prepaid expenses are amortized over the period benefited using the straight-line method.

### l. Fixed Assets

All fixed assets are initially recognized at cost, which comprises its purchase price and any costs directly attributable in bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

FOR THE NINE-MONTH PERIODS ENDED

SEPTEMBER 30, 2015 (UNAUDITED)

FINANCIAL STATEMENTS

stated)

Subsequent to initial recognition, fixed assets, except land, are carried at cost less any subsequent accumulated depreciation and impairment losses.

The Group has chosen the cost model as the accounting policy for its fixed assets measurement.

Depreciation is calculated on a straight-line basis over the useful lives of the assets. The estimated useful lives of the assets are as follows:

	Tahun / Years	
Bangunan dan prasarana sewa	3-20	Buildings and leasehold improvements
Peralatan studio dan peralatan		Studio equipment and relay station
stasiun pemancar	5-15	equipment
Perabot dan peralatan kantor		Furniture and fixtures, office equipment
serta kendaraan	5	and vehicles

Pada setiap akhir periode pelaporan, nilai residu aset, umur manfaat dan metode penyusutan ditelaah, dan jika sesuai dengan keadaan, disesuaikan secara prospektif.

Hak atas tanah dinyatakan sebesar nilai perolehan dan tidak disusutkan.

Aset dalam penyelesaian dinyatakan sebesar biaya perolehan dan disajikan sebagai bagian dari "Aset Tetap" dalam laporan posisi keuangan konsolidasian. Akumulasi biaya perolehan akan dipindahkan ke masing-masing akun aset tetap yang bersangkutan pada saat aset tersebut selesai dikerjakan dan siap digunakan.

Beban perbaikan dan pemeliharaan dibebankan pada laporan laba rugi komprehensif konsolidasian pada saat terjadinya; biaya penggantian atau inspeksi yang signifikan dikapitalisasi pada saat terjadinya dan jika besar kemungkinan manfaat ekonomis di masa depan berkenaan dengan aset tersebut akan mengalir ke Kelompok Usaha, dan biaya perolehan aset dapat diukur secara handal. Aset tetap dihentikan pengakuannya pada saat dilepaskan atau ketika tidak ada manfaat ekonomis masa depan yang diharapkan dari penggunaan atau pelepasannya. Laba atau rugi yang timbul dari penghentian pengakuan aset dimasukkan dalam laporan laba rugi komprehensif konsolidasian pada tahun aset tersebut dihentikan pengakuannya.

At the end of each reporting period, the assets' residual values, useful lives and method of depreciation are reviewed, and if appropriate, adjusted prospectively.

Land rights are stated at cost and are not depreciated.

Construction-in-progress is stated at cost and presented as part of "Fixed Assets" in the consolidated statement of financial position. The accumulated costs will be reclassified to the appropriate fixed assets account when construction is completed and the assets are ready for their intended use.

The cost of repairs and maintenance is charged to consolidated statement of comprehensive income as incurred; replacement or major inspection costs are capitalized when incurred if it is probable that future economic benefits associated with the costs will flow to the Group and the cost of the item can be reliably measured. An item of fixed assets is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is included in the consolidated statement of comprehensive income in the year the assets is derecognized.

#### m. Goodwill

Goodwill yang timbul dari kombinasi bisnis diakui sebagai aset pada tanggal diperolehnya pengendalian (tanggal akuisisi). Goodwill diukur sebagai selisih dari imbalan yang dialihkan, jumlah setiap kepentingan nonpengendali pada pihak yang diakuisisi dan dalam hal bisnis kombinasi yang dilakukan secara bertahap pada nilai wajar dari kepentingan ekuitas yang sebelumnya dimiliki pihak pengakuisisi pada pihak yang diakuisisi (jika ada) atas jumlah selisih neto dari aset teridentifikasi yang diperoleh dan liabilitas yang diambil alih pada tanggal akuisisi.

Sesuai dengan ketentuan transisi dari PSAK 22 (Revisi 2010), sejak tanggal 1 Januari 2011, Kelompok Usaha:

- a) menghentikan amortisasi goodwill;
- b) mengeliminasi jumlah tercatat akumulasi amortisasi *goodwill* terkait; dan
- c) melakukan uji penurunan nilai atas *goodwill* sesuai dengan PSAK 48 (Revisi 2009), "Penurunan Nilai Aset".

Untuk tujuan uji penurunan nilai, goodwill dialokasikan pada setiap unit penghasil kas dari Kelompok Usaha yang diharapkan memberikan manfaat dari sinergi kombinasi bisnis tersebut. Unit penghasil kas yang telah memperoleh alokasi goodwill diuji penurunan nilainya secara tahunan, dan ketika terdapat indikasi bahwa unit tersebut mengalami penurunan nilai. Jika jumlah terpulihkan dari unit penghasil kas kurang dari jumlah tercatatnya, rugi penurunan nilai dialokasikan pertama untuk mengurangi jumlah tercatat aset atas setiap goodwill yang dialokasikan pada unit dan selanjutnya ke aset lainnya dari unit dibagi prorata atas dasar jumlah tercatat setiap aset dalam unit tersebut. Rugi penurunan nilai yang diakui atas goodwill tidak dapat dibalik pada periode berikutnya.

#### m. Goodwill

Goodwill arising in a business combination is recognized as an asset at the date that control is acquired (the acquisition date). Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any noncontrolling interest in the acquiree and in the case of business combination achieved in stages a the fair value of the acquirer's previously held equity interest (if any) in the entity over net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed.

In accordance with the transitional provision of PSAK 22 (Revised 2010), starting January 1, 2011, the Group:

- a) ceased the amortization of goodwill;
- b) eliminated the carrying amount of the related accumulated amortization of goodwill; and
- c) performed an impairment test on goodwill in accordance with PSAK 48 (Revised 2009), "Impairment of Assets".

For the purpose of impairment testing, goodwill is allocated to each of the Group's cash-generating units expected to benefit from the synergies of the combination. Cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit. An impairment loss recognized for goodwill is not reversed in subsequent periods.

#### n. Penurunan Nilai Aset Non-Keuangan

Pada setiap tanggal pelaporan Kelompok Usaha menilai apakah terdapat indikasi aset mengalami penurunan nilai. Jika terdapat indikasi tersebut, maka Kelompok Usaha mengestimasi jumlah terpulihkan aset tersebut. Jumlah terpulihkan suatu aset atau unit penghasil kas adalah jumlah yang lebih tinggi antara nilai wajar dikurangi biaya untuk menjual dan nilai pakainya. Jika jumlah terpulihkan suatu aset lebih kecil dari nilai tercatatnya, nilai tercatat aset harus diturunkan menjadi sebesar jumlah terpulihkan. Kerugian penurunan nilai diakui segera dalam laba rugi.

#### o. Sewa

Penentuan apakah suatu perjanjian merupakan perjanjian sewa atau perjanjian yang mengandung sewa didasarkan atas substansi perjanjian pada tanggal awal sewa dan apakah pemenuhan perjanjian tergantung pada penggunaan suatu aset dan perjanjian tersebut memberikan suatu hak untuk menggunakan aset tersebut.

Kelompok Usaha menerapkan PSAK No. 30 (Revisi 2011), "Sewa", yang mengatur apabila sewa mengandung elemen tanah dan bangunan sekaligus, entitas harus menelaah klasifikasi untuk setiap elemen secara terpisah apakah sebagai sewa pembiayaan atau sewa operasi.

Kelompok Usaha mengklasifikasikan sewa berdasarkan sejauh mana risiko dan manfaat yang terkait dengan kepemilikan aset sewaan berada pada *lessor* atau *lessee*, dan pada substansi transaksi daripada bentuk kontraknya.

Sewa yang mengalihkan secara substansial semua risiko dan manfaat yang terkait dengan kepemilikan lessee kepada diklasifikasikan sewa pembiayaan. Pada awal masa sewa, sewa pembiayaan dikapitalisasi sebesar nilai wajar aset sewaan atau sebesar nilai kini dari pembayaran sewa minimum, jika nilai kini lebih rendah dari nilai wajar. Pembayaran sewa minimum dipisahkan antara bagian yang merupakan beban keuangan dan bagian yang merupakan pelunasan liabilitas sehingga menghasilkan suatu tingkat bunga periodik yang konstan atas saldo liabilitas. Beban keuangan dibebankan pada laporan laba rugi komprehensif konsolidasian. Aset sewaan yang dimiliki oleh lessee dengan dasar sewa pembiayaan dicatat pada akun aset tetap dan disusutkan sepanjang masa manfaat dari aset sewaan tersebut atau periode masa sewa, mana yang lebih pendek, jika tidak ada kepastian yang memadai bahwa lessee akan mendapatkan hak kepemilikan pada akhir masa sewa.

#### n. Impairment of Non-Financial Assets

The Group evaluates at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the Group estimates the recoverable amount of the asset. The recoverable amount of an asset or a cash-generating unit is the higher of its fair value less costs to sell and its value in use. Whenever the carrying amount of an asset exceeds its recoverable amount, the asset is considered to be impaired and is written down to its recoverable amount. The impairment loss is recognized immediately in the profit or loss.

#### o. Leases

The determination of whether an arrangement is, or contains a lease, is based on the substance of the arrangement at the inception date and whether the fulfillment of the arrangement is dependent on the use of a specific asset and the arrangement conveys a right to use the asset.

The Group adopted PSAK No. 30 (Revised 2011), "Lease", which stipulates when a lease includes both land and building elements, an entity should assess the classification of each element separately whether as a finance or an operating lease.

The Group classifies leases based on the extent to which risks and rewards incidental to the ownership of a leased asset are vested upon the lessor or the lessee, and the substance of the transaction rather than the form of the contract.

Leases that transfer substantially all the risks and benefits incidental to ownership of the leased item to the lessee are classified as finance leases. Finance leases are capitalized at the inception of the lease at the fair value of the leased assets or at the present value of the minimum lease payments if the present value is lower than the fair value. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recorded in the consolidated statement of comprehensive income. Leased assets held by the lessee under finance leases are included in fixed assets and depreciated over the estimated useful life of the assets or the lease term, whichever is shorter, if there is no reasonable certainty that lessee will obtain ownership by the end of the lease term.

# 2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

Sewa yang tidak mengalihkan secara substansial seluruh risiko dan manfaat yang terkait dengan kepemilikan aset diklasifikasikan sebagai sewa operasi. Dengan demikian, pembayaran sewa diakui dalam laba rugi dengan dasar garis lurus (*straightline basis*) selama masa sewa.

#### p. Pengakuan Pendapatan dan Beban

Pendapatan diakui bila besar kemungkinan manfaat ekonomi akan diperoleh Kelompok Usaha dan jumlahnya dapat diukur secara handal. Pendapatan diukur pada nilai wajar imbalan yang diterima, tidak termasuk diskon, rabat dan pajak penjualan (PPN).

Pendapatan iklan diakui pada saat iklan yang bersangkutan ditayangkan.

Penjualan materi program diakui pada saat penyerahan materi kepada pelanggan atau pada saat produksi selesai, sesuai dengan keadaannya, berdasarkan syarat dalam perjanjian tersebut.

Uang muka yang diterima dari pelanggan dicatat sebagai "Uang Muka Pelanggan" pada laporan posisi keuangan konsolidasian.

Beban diakui pada saat terjadinya (metode akrual).

#### q. Imbalan Kerja

Kelompok Usaha menentukan liabilitas imbalan kerja sesuai dengan Undang-undang Ketenagakerjaan No. 13/2003 ("Undang-undang") tanggal 25 Maret 2003. PSAK No. 24 (Revisi 2010), "Imbalan Kerja" mensyaratkan beban imbalan pascakerja berdasarkan Undang-undang ditentukan dengan menggunakan metode aktuarial "*Projected Unit Credit*".

# 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Leases that do not transfer substantially all the risks and benefits incidental to ownership of the leased item are classified as operating leases. Accordingly, the related lease payments are recognized in profit or loss on a straight-line basis over the lease term.

#### p. Revenue and Expense Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received, excluding discounts, rebates and value-added taxes (VAT).

Advertisement revenue is recognized when the advertisement is aired.

Sale of program materials is recognized upon delivery of materials to customers or upon completion of production, as the case may be, in accordance with the term of the related agreements.

Advances received from customers are recorded as "Advance Receipts from Customers" in the consolidated statement of financial position.

Expenses are recognized when incurred (accrual basis).

#### q. Employee Benefits

The Group determines its employee benefits liability under Labor Law No. 13/2003 dated March 25, 2003 ("the Law"). PSAK No. 24 (Revised 2010), "Employee Benefits" requires the cost of post employment benefits based on the Law to be determined using the "Projected Unit Credit" actuarial valuation method.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

Keuntungan atau kerugian aktuarial diakui sebagai beban pendapatan atau apabila akumulasi keuntungan atau kerugian aktuarial neto yang belum diakui pada akhir tahun pelaporan sebelumnya melebihi jumlah yang lebih besar diantara 10% dari nilai kini imbalan pasti dan 10% dari nilai wajar aset program pada akhir periode pelaporan. Porsi keuntungan atau kerugian aktuarial yang diakui adalah kelebihan tersebut dibagi dengan rata-rata sisa masa keria ekspektasian dari para pekeria terkait. Beban jasa lalu yang terjadi ketika memperkenalkan program imbalan pasti atau mengubah imbalan terutang pada program imbalan pasti yang ada, diamortisasi selama periode sampai imbalan tersebut menjadi hak.

Kelompok Usaha mengakui keuntungan atau kerugian atas kurtailmen atau penyelesaian pada saat terjadinya. Kurtailmen terjadi jika entitas menunjukkan komitmennya untuk mengurangi secara signifikan jumlah pekerja yang ditanggung oleh program, atau mengubah ketentuan dalam program yang menyebabkan bagian yang material dari jasa masa depan pekerja tidak lagi memberikan imbalan atau memberikan imbalan yang lebih rendah. Sebelum menentukan dampak kurtailmen atau penyelesaian, Kelompok Usaha mengukur kembali kewajiban dengan menggunakan asumsi aktuarial yang berlaku.

### r. Pajak Penghasilan

Beban pajak kini ditetapkan berdasarkan taksiran laba kena pajak periode berjalan.

Aset pajak kini dan liabilitas pajak kini dilakukan saling hapus jika dan hanya jika entitas memiliki hak yang dapat dipaksakan secara hukum untuk melakukan saling hapus jumlah yang diakui; dan bermaksud untuk menyelesaikan dengan dasar neto, atau merealisasikan aset dan menyelesaikan liabilitas secara bersamaan.

Aset dan liabilitas pajak tangguhan diakui atas perbedaan temporer antara aset dan liabilitas untuk tujuan komersial dan untuk tujuan perpajakan setiap tanggal pelaporan. Manfaat pajak di masa mendatang, seperti saldo rugi fiskal yang belum digunakan, diakui sejauh besar kemungkinan realisasi atas manfaat pajak tersebut.

PT INTERMEDIA CAPITAL Tbk AND SUBSIDIARIES NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS FOR THE NINE-MONTH PERIODS ENDED SEPTEMBER 30, 2015 (UNAUDITED) (Expressed in thousands of Rupiah, unless otherwise stated)

# 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Actuarial gains or losses are recognized as income or expense when the net cumulative unrecognized actuarial gains and losses at the end of the previous reporting year exceeded the greater of 10% of the present value of defined benefit obligation and 10% of the fair value of plan assets at that date. The recognized portion of actuarial gains or losses is the excess divided by the expected average remaining working lives of the related employees. Past-service cost arising from the introduction of a defined benefit plan or changes in the benefits obligation of an existing plan are required to be amortized over the period until the benefits concerned become vested.

The Group recognizes gains or losses on curtailment or settlement when it occurs. A curtailment occurs when an entity is demonstrably committed to making a significant reduction in the number of employees covered by a plan, or amends the terms of a defined benefit plan so that a significant element of future service by current employees will no longer qualify for benefits, or will qualify only for reduced benefits. Before determining the effect of a curtailment or settlement, the Group remeasures the obligation using current actuarial assumptions.

### r. Income Taxes

Current tax expense is provided based on the estimated taxable income for the period.

Current tax assets and current tax liabilities are offset if, and only if, the entity has a legally enforceable right to set off the recognized amounts; and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred tax assets and liabilities are recognized for temporary differences between the financial and the tax bases of assets and liabilities at each reporting date. Future tax benefits, such as the carry-forward of unused tax losses, are also recognized to the extent that realization of such benefits is probable.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (Lanjutan)

Aset dan liabilitas pajak tangguhan diukur pada tarif pajak yang diharapkan akan digunakan pada periode ketika aset direalisasi atau ketika liabilitas dilunasi berdasarkan tarif pajak (dan peraturan perpajakan) yang berlaku atau secara substansial telah diberlakukan pada akhir periode pelaporan.

Aset pajak tangguhan dan liabilitas pajak tangguhan dilakukan saling hapus jika dan hanya jika entitas memiliki hak secara hukum untuk saling hapus aset pajak kini terhadap liabilitas pajak kini, dan aset pajak tangguhan dan liabilitas pajak tangguhan terkait dengan pajak penghasilan yang dikenakan oleh otoritas perpajakan atas entitas kena pajak, yang sama atau entitas kena pajak berbeda yang bermaksud untuk memulihkan aset dan liabilitas pajak kini dengan dasar neto, atau merealisasikan aset dan menyelesaikan liabilitas secara bersamaan, pada setiap periode masa depan yang mana jumlah signifikan atas aset atau liabilitas pajak tangguhan diharapkan diselesaikan atau dipulihkan.

Jumlah tambahan pokok dan denda pajak berdasarkan Surat Ketetapan Pajak ("SKP") diakui sebagai pendapatan atau beban dalam laba rugi periode/tahun berjalan. Namun jika diajukan upaya penyelesaian selanjutnya, jumlah tersebut ditangguhkan pembebanannya sepanjang memenuhi kriteria pengakuan aset.

### s. Laba per Saham

Perusahaan tidak mempunyai efek berpotensi saham biasa yang bersifat dilutif pada tanggal 30 September 2015 dan 31 Desember 2014.

Laba per saham dasar dihitung dengan membagi laba atau rugi yang dapat diatribusikan kepada pemegang saham biasa entitas induk, dengan jumlah rata-rata tertimbang saham biasa yang beredar dalam suatu periode.

# 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the end of reporting period.

Deferred tax assets and deferred tax liabilities are offset if, and only if, the entity has a legally enforceable right to set off current tax assets against current tax liabilities, and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity, or different taxable entities that intend either to settle current tax liabilities and assets on a net basis, or to realize the assets and settle the liabilities simultaneously in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Additional tax principal and penalty amounts based on Tax Assessment Letters ("SKP") are recognized as income or expense in the current period/year profit or loss. However when further avenue is sought, such amounts are deferred if they meet the asset recognition criteria.

### s. Earnings per Share

The Company has no outstanding dilutive potential ordinary shares as of September 30, 2015 and December 31, 2014.

Basic earnings per share is computed by dividing profit or loss attributable to ordinary equity holders of the parent entity, by the weighted average number of ordinary shares outstanding during the period.

- c) PSAK No. 68 (Amendment 2014) "Fair Value Measurements"

# 3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of financial statements, in conformity with Indonesian Financial Accounting Standards, requires management to make judgments, estimations and assumptions that affect amounts reported therein. Due to the inherent uncertainty in making estimates, actual results reported in future periods may differ from those estimates.

The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions as they occur.

The following judgments, estimates and assumptions made by management in the process of applying the Group's accounting policies have the most significant effects on the amounts recognized in the consolidated financial statements:

3. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING (Lanjutan)

Menentukan klasifikasi aset dan liabilitas keuangan

Kelompok Usaha menetapkan klasifikasi atas aset dan liabilitas tertentu sebagai aset keuangan dan liabilitas keuangan dengan mempertimbangkan apakah definisi yang ditetapkan PSAK No. 55 dipenuhi. Dengan demikian, aset keuangan dan liabilitas keuangan diakui sesuai dengan kebijakan akuntansi Kelompok Usaha. seperti diungkapkan pada Catatan 2f.

Menentukan nilai wajar dan perhitungan amortisasi biaya perolehan dari instrumen keuangan

Kelompok Usaha mencatat aset dan liabilitas keuangan tertentu pada nilai wajar dan pada biaya perolehan yang diamortisasi, yang mengharuskan penggunaan estimasi akuntansi. Sementara komponen signifikan atas pengukuran nilai wajar dan asumsi yang digunakan dalam perhitungan amortisasi biaya perolehan ditentukan menggunakan bukti obyektif yang dapat diverifikasi, jumlah nilai wajar atau amortisasi dapat berbeda bila Kelompok Usaha menggunakan metodologi penilaian atau asumsi yang berbeda. Perubahan tersebut dapat mempengaruhi secara langsung laba rugi Kelompok Usaha (Catatan 29).

## Menilai jumlah terpulihkan dari aset keuangan

Kelompok Usaha mengevaluasi akun piutang tertentu yang diketahui bahwa pelanggan tertentu tidak dapat memenuhi kewajiban keuangannya. Dalam hal tersebut, menggunakan Kelompok Usaha pertimbangan, berdasarkan fakta dan situasi yang tersedia, termasuk namun tidak terbatas pada, jangka waktu hubungan dengan pelanggan dan status kredit dari pelanggan berdasarkan catatan kredit dari pihak ketiga yang tersedia dan faktor pasar yang telah diketahui, untuk mencatat penyisihan spesifik atas pelanggan terhadap jumlah terutang guna mengurangi jumlah piutang yang diharapkan dapat diterima oleh Kelompok Usaha. Penyisihan spesifik ini dievaluasi kembali disesuaikan jika tambahan informasi yang diterima mempengaruhi jumlah penyisihan atas penurunan nilai piutang (Catatan 7 dan 8).

## 3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)

<u>Determining classification of financial assets and financial liabilities</u>

The Group determines the classifications of certain assets and liabilities as financial assets and financial liabilities by judging if they meet the definition set forth in PSAK No. 55. Accordingly, the financial assets and financial liabilities are accounted for in accordance with the Group's accounting policies disclosed in Note 2f.

<u>Determining fair value and calculation of cost</u> amortization of financial instruments

The Group records certain financial assets and liabilities at fair values and at amortized costs, which require the use of accounting estimates. While significant components of fair value measurement and assumptions used in the calculation of cost amortization were determined using verifiable objective evidence, the fair value or amortization amount would differ if the Group utilized different valuation methodology or assumptions. Such changes would directly affect the Group's profit or loss (Note 29).

## Assessing recoverable amount of financial assets

The Group evaluates specific accounts receivable where it has information that certain customers are unable to meet its financial obligations. In these cases, the Group uses judgment, based on available facts and circumstances, including but not limited to, the length of its relationship with the customer and the customer's current credit status based on any available third party credit reports and known market factors, to record specific provisions for customers against amounts due to reduce its receivable amounts that the Group expects to collect. These specific provisions are re-evaluated and adjusted as additional information received affects the provision for impairment (Notes 7 and 8).

3. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING (Lanjutan)

Menentukan amortisasi persediaan materi program

Persediaan materi program dengan pembelian secara putus untuk program film, sinetron dan program serial, diamortisasi berdasarkan basis akselerasi selama jumlah penayangan yang diharapkan, sedangkan program dibawah perjanjian lisensi diamortisasi berdasarkan metode garis lurus selama periode lisensi atau berdasarkan jumlah penayangan, mana yang lebih dahulu. Amortisasi tersebut adalah secara umum diharapkan dalam industri dimana Kelompok Usaha menjalankan bisnisnya. Perubahan dalam belanja iklan, penjualan waktu tayang, peringkat, pangsa pemirsa dan perkembangan teknologi dapat mempengaruhi amortisasi persediaan materi program dan karenanya metode amortisasi tersebut di masa depan mungkin direvisi (Catatan 9).

# Menentukan metode penyusutan dan estimasi umur manfaat aset tetap

Biaya perolehan aset tetap disusutkan dengan menggunakan metode garis lurus berdasarkan taksiran masa manfaat ekonomisnya. Manajemen mengestimasi masa manfaat ekonomis aset tetap antara tiga (3) sampai dengan dua puluh (20) tahun. Ini adalah umur yang secara umum diharapkan dalam industri dimana Kelompok Usaha menjalankan bisnisnya. Perubahan tingkat pemakaian dan perkembangan teknologi dapat mempengaruhi masa manfaat ekonomis dan nilai sisa aset, dan karenanya biaya penyusutan masa depan mungkin direvisi (Catatan 11).

## Alokasi harga beli dalam suatu kombinasi bisnis

Akuntansi akuisisi mensyaratkan penggunaan estimasi dan pertimbangan akuntansi untuk mengalokasikan harga perolehan terhadap nilai pasar wajar dari aset dan liabilitas yang teridentifikasi dari entitas yang diakuisisi. Setiap kelebihan dari harga perolehan atas nilai pasar wajar yang diestimasikan dari aset neto yang diakuisisi diakui sebagai *goodwill* dalam laporan posisi keuangan konsolidasian. Dengan demikian, pertimbangan yang dibuat dalam mengestimasi nilai pasar wajar yang diatribusikan ke aset dan liabilitas entitas yang diakuisisi dapat mempengaruhi kinerja keuangan Kelompok Usaha secara material.

## 3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)

<u>Determining amortization method of program material</u> inventories

Program material inventories for outright purchased programs such as film programs, sinetrons and series programs are amortized based on an accelerated basis over the number of expected telecasts, while programs under license arrangements are amortized based on the straight-line method over the periods of the related license or number of telecasts, whichever is earlier. The amortization practices are commonly applied in the industry in which the Group conducts its business. Changes in advertising expenditure, sale of airtime, rating, audience share and technological development could impact on the amortization method of program material inventories and therefore, the amortization method could be revised in the future (Note 9).

## <u>Determining depreciation method and estimated useful</u> lives of fixed assets

The costs of fixed assets are depreciated on a straightline basis over their estimated useful lives. Management properly estimates the useful lives of these fixed assets to be within three (3) to twenty (20) years. These are common life expectancies applied in the industry in which the Group conducts its business. Changes in the expected level of usage and technological development could impact on the useful economic lives and residual values of these assets, and therefore future depreciation charges could be revised (Note 11).

## Purchase price allocation in a business combination

Accounting for acquisitions requires extensive use of accounting estimates and judgments to allocate the purchase price to the fair market values of the acquiree's identifiable assets and liabilities at the acquisition date. Any excess in the purchase price over the estimated fair market values of the net assets acquired is recorded as goodwill in the consolidated financial statements. Thus, the numerous judgments made in estimating the fair market value to be assigned to the acquiree's assets and liabilities can materially affect the Group's financial performance.

3. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING (Lanjutan)

#### Menilai jumlah terpulihkan aset non-keuangan

Penyisihan keusangan persediaan materi program diestimasi berdasarkan fakta dan situasi yang tersedia, termasuk namun tidak terbatas kepada, kondisi fisik persediaan yang dimiliki, harga jual pasar, dan estimasi biaya penyelesaian. Provisi dievaluasi kembali dan disesuaikan jika terdapat tambahan informasi yang mempengaruhi jumlah yang diestimasi (Catatan 9).

Jumlah terpulihkan aset tetap dan *goodwill* didasarkan pada estimasi dan asumsi khususnya mengenai prospek pasar dan arus kas terkait dengan aset. Estimasi arus kas masa depan mencakup perkiraan mengenai pendapatan masa depan. Setiap perubahan dalam asumsi-asumsi ini mungkin memiliki dampak material terhadap pengukuran jumlah terpulihkan dan bisa mengakibatkan penyesuaian penyisihan penurunan nilai yang sudah dibukukan (Catatan 11, 12 dan 13).

Pada tanggal 31 Desember 2014 dan 2013, Kelompok Usaha menilai bahwa tidak ada indikasi penurunan nilai persediaan materi program, uang muka pembelian peralatan, aset tetap, *goodwill* atau aset tidak lancar lainnya.

### Estimasi beban pensiun dan imbalan kerja

Penentuan liabilitas dan biaya pensiun dan liabilitas imbalan kerja Kelompok Usaha bergantung pada pemilihan asumsi yang digunakan dalam menghitung jumlah-jumlah tersebut. Asumsi tersebut termasuk antara lain, tingkat diskonto, tingkat kenaikan gaji tahunan, tingkat pengunduran diri karyawan tahunan, tingkat kecacatan, umur pensiun dan tingkat kematian. Sementara Kelompok Usaha berkeyakinan bahwa asumsi tersebut adalah wajar dan sesuai, perbedaan signifikan pada hasil aktual atau perubahan signifikan dalam asumsi yang ditetapkan Kelompok Usaha dapat mempengaruhi secara material liabilitas dan beban imbalan kerja (Catatan 20).

## 3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)

#### Assessing recoverable amounts of financial assets

Allowance for obsolescence of program material inventories is estimated based on available facts and circumstances, including but not limited to, the inventories, own physical condition, their market selling prices, and estimated costs of completion. The provisions are re-evaluated and adjusted as additional information received affects the amount estimated (Note 9).

The recoverable amounts of fixed assets and goodwill are based on estimates and assumptions regarding in particular the expected market outlook and future cash flows associated with the assets. Estimated future cash flows include estimates of future revenues. Any changes in these assumptions may have a material impact on the measurement of the recoverable amount and could result in adjustments to the provision of impairment already booked (Notes 11, 12 and 13).

As of December 31, 2014 and 2013, the Group assessed that there was no indication of impairment of its program material inventories, advances for purchase of equipment, fixed assets, goodwill or other non-current assets.

### Estimation of pension cost and employee benefits

The determination of the Group's liabilities and cost for pension and employee benefits is dependent on its selection of certain assumptions used in calculating such amounts. These assumptions include among others, discount rates, annual salary increase rate, annual employee turn-over rate, disability rate, retirement age and mortality rate. While the Group believes that its assumptions are reasonable and appropriate, significant differences in the Group's actual results or significant changes in the Group's assumptions may materially affect its employee benefits liability and expenses (Note 20).

3. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING (Lanjutan)

#### Menentukan pajak penghasilan

Pertimbangan signifikan dilakukan dalam menentukan provisi atas pajak penghasilan badan. Terdapat transaksi dan perhitungan tertentu yang penentuan pajak akhirnya adalah tidak pasti sepanjang kegiatan usaha normal. Kelompok Usaha mengakui liabilitas yang diharapkan atas pajak penghasilan badan berdasarkan estimasi apakah akan terdapat tambahan pajak penghasilan badan (Catatan 19).

Kelompok Usaha menelaah aset pajak tangguhan pada setiap tanggal pelaporan dan mengurangi nilai tercatat sepanjang tidak ada kemungkinan bahwa laba kena pajak memadai untuk mengkompensasi sebagian atau seluruh aset pajak tangguhan. Kelompok Usaha juga menelaah waktu yang diharapkan dan tarif pajak atas pemulihan perbedaan temporer dan menyesuaikan pengaruh atas pajak tangguhan yang sesuai (Catatan 19).

## Mengevaluasi provisi dan kontinjensi

Kelompok Usaha melakukan pertimbangan untuk membedakan antara provisi dan kontinjensi serta mempersiapkan provisi yang sesuai untuk proses hukum atau kewajiban konstruktif, jika ada, sesuai dengan kebijakan provisinya dan mempertimbangkan risiko dan ketidakpastian yang relevan.

## 3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)

#### Determining income taxes

Significant judgment is involved in determining provision for corporate income tax. There are certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognizes liabilities for expected corporate income tax issues based on estimates of whether additional corporate income tax will be due (Note 19).

The Group reviews its deferred tax assets at each reporting date and reduces the carrying amount to the extent it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilized. The Group also reviews the expected timing and tax rates upon reversal of temporary differences and adjusts the impact of deferred tax accordingly (Note 19).

### Evaluating provisions and contingencies

The Group exercises its judgment to distinguish between provisions and contingencies and sets up appropriate provisions for its legal and constructive obligations, if any, in accordance with its policies on provisions and takes relevant risks and uncertainty into account.

Manajemen berpendapat bahwa persediaan materi program tidak perlu diasuransikan terhadap risiko kerugian atas kebakaran atau pencurian karena nilai wajar persediaan materi program tidak dapat diterapkan sebagai dasar untuk menentukan nilai pertanggungan asuransi dan bila terjadi kebakaran atau pencurian atas persediaan materi program yang dibeli, CAT dapat meminta penggantian dari distributor bersangkutan selama persediaan materi program tersebut belum ditayangkan dan belum habis masa berlakunya.

Management believes that the program material inventories do not need to be insured against risk of loss from fire or theft since the fair value of the program material inventories could not be established for the purpose of insurance. If such loss should occur, CAT can request a replacement from the relevant distributor for as long as the program material inventories have not yet been aired or expired.

### **30. INSTRUMEN KEUANGAN** (Lanjutan)

Berdasarkan PSAK 60, "Instrumen Keuangan: Pengungkapan", terdapat tingkatan hirarki nilai wajar sebagai berikut:

- a) harga kuotasian (tidak disesuaikan) dalam pasar aktif untuk aset atau liabilitas yang identik (tingkat 1),
- b) input selain harga kuotasian yang termasuk dalam tingkat 1 yang dapat diobservasi untuk aset atau liabilitas, baik secara langsung (misalnya harga) atau secara tidak langsung (misalnya derivasi dari harga pasar) (tingkat 2), dan
- c) input untuk aset atau liabilitas yang bukan berdasarkan data pasar yang dapat diobservasi (input yang tidak dapat diobservasi) (tingkat 3).

Metode dan asumsi berikut ini digunakan untuk mengestimasi nilai wajar untuk setiap kelompok instrumen keuangan sepanjang nilai tersebut dapat diestimasi:

Aset dan liabilitas keuangan jangka pendek:

 Instrumen keuangan jangka pendek dengan jatuh tempo satu tahun atau kurang (kas, piutang usaha dan piutang lain-lain)

Instrumen keuangan ini diperkirakan sebesar nilai tercatat mereka karena sebagian besar merupakan jangka pendek.

Aset dan liabilitas keuangan jangka panjang:

Liabilitas keuangan jangka panjang dengan suku bunga tetap

Nilai wajar dari liabilitas keuangan ini ditentukan dengan mendiskontokan arus kas masa datang menggunakan suku bunga yang berlaku dari transaksi pasar yang dapat diamati untuk instrumen dengan persyaratan, risiko kredit dan jatuh tempo yang sama.

• Aset dan liabilitas keuangan jangka panjang lainnya

Estimasi nilai wajar didasarkan pada nilai diskonto dari arus kas masa datang yang disesuaikan untuk mencerminkan risiko pihak lawan (untuk aset keuangan) dan risiko kredit Kelompok Usaha (untuk liabilitas keuangan) dan menggunakan suku bunga bebas risiko (*risk-free rates*) dari instrumen yang serupa.

FINANCIAL STATEMENTS

#### **30. FINANCIAL INSTRUMENTS** (Continued)

stated)

Based on PSAK 60, "Financial Instruments: Disclosures", there are levels of fair value hierarchy as follows:

- a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1),
- b) inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from market prices) (level 2), and
- c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

The following methods and assumptions were used to estimate the fair value of each class of financial instrument for which it is practicable to do so:

Short-term financial assets and liabilities:

• Short-term financial instruments with remaining maturities of one year or less (cash, trade receivables and other receivables)

These financial instruments approximate to their carrying amounts largely due to their short-term maturities.

Long-term financial assets and liabilities:

• Long-term fixed-rate financial liabilities

The fair value of these financial liabilities is determined by discounting future cash flows using applicable rates from observable current market transactions for instruments with similar terms, credit risk and remaining maturities.

• Other long-term financial assets and liabilities

Estimated fair value is based on the discounted value of future cash flows adjusted to reflect counterparty risk (for financial assets) and the Group's own credit risk (for financial liabilities) and using risk-free rates for similar instruments.

(Disajikan dalam ribuan Rupiah, kecuali dinyatakan lain)

### **30. INSTRUMEN KEUANGAN** (Lanjutan)

Aset tidak lancar lainnya dan investasi jangka pendek yang tidak dikuotasi di harga pasar dan nilai wajarnya tidak dapat diukur secara handal tanpa menimbulkan biaya yang berlebihan, dicatat berdasarkan nilai nominal dikurangi penurunan nilai.

Pada tanggal 30 September 2015 dan 31 Desember 2014, Kelompok Usaha tidak memiliki instrumen keuangan yang diukur pada nilai wajar.
